Earth and Self of Human Dog.

Francisco Bride Shoots Worthless Husband As Last Resort.

Day and Night to Home; Called Wagon Avenge Honor.

of Suffering, Misplaced Devotion, Brings Tears to Hardened Eyes.

P. NIGHT WIRE TO THE TIMES.]

FRANCISCO, Aug. 2.—(Exclusive Dispatch.) A woman, 19 years old, shot and killed her husband today. The woman, Mrs. Langley, was married fifteen months. Langley left home saying he would return, but he never came back. Mrs. Langley found a revolver and started on a finding him in a near-by saloon. According to bystanders, Langley upon her with a torrent of abuse. Without a word, she raised the revolver and fired. One struck Langley and he fell on the way to a hospital. Mrs. Langley went wild. Mrs. Langley said she should be dead, as she said at the city prison, nothing wrong, and I am not a murderer. I tried to save our marriage. I have supported him and myself as a stenographer. I tried to

WORSE THAN OUR VENICE.

Constable of Show-Me State Arrests Fair Bathers Who Show Too Much.

(BY DIRECT WIRE TO THE TIMES.)

KANSAS CITY (Mo.), Aug. 2.—(Exclusive Dispatch.) Grace Dalton, aged 19 years, and Nellie Nole, 15, were arrested yesterday in Police Court yesterday for bathing in the Missouri river at Harlem in Clay county. It was not the bathing that led to their arrests, so much as the bathing suits they wore. According to half of Harlem's population, which gathered on the bank of the pair of river nymphs, the bathing suits were just plain union suits, and "shrunken at that."

persuade him to stay away from saloons. I endured his abuse. I tried to instill some ambition into him, and coach him for the fireman's Civil Service examination. He would not attempt it. I could stand no more, and I shot him."

Struggled in the arms of her mother, Mrs. James Gaffney, Mrs. Langley recounted the events, which culminated in the tragedy. When she had finished, Chief of Police White, Police Commissioner Sullivan, a desk sergeant, three reporters, and two photographers, stood about her, crying like children.

Langley, when he left the house, took her marriage certificate along, she said, and would not give it back.

Called her vile names. "It's only a token, Jim," I told him, "but it's all I've got," she wept. "He wouldn't let me have it."

At the saloon, she said, Langley asked her to give him twenty dollars of ninety that she had saved "to make a nice home for him," so that he could look it to the saloon-keeper to pay in or a license.

"I had worked hard for every nickel," she said.

TROOPS IN READINESS.

Mexican Soldiers Are Under Arms.

Streets of the Capital City Patrolled by Police in Fear of Outbreaks.

Trouble Is Brewing Over the Resignation of Minister of the Interior.

Garrison n Juarez Friendly to Magonista Reds on American Border.

(BY DIRECT WIRE TO THE TIMES.)

MEXICO CITY, Aug. 2.—(Exclusive Dispatch.) The resignation of Emilio Vasquez Gomez, Minister of the Interior, which had been discounted for weeks and taken for granted by all political groups, now that it has occurred, has given rise to a grave situation, and tonight the city is being patrolled by numerous detachments of mounted police, while troops are under arms in their barracks, ready to quell any disturbance that may occur.

The revolutionary party is now split into two factions, the Maderistas and the Vasquezistas, the latter being the followers of the deposed Minister, for the retirement of Vasquez Gomez is rather a dismissal than a voluntary resignation.

IN HIS NOTE.

This is by Vasquez Gomez himself in his note of resignation, in which he declares that he had been ordered by President De la Barra to resign, their views being irreconcilably divergent, for while De la Barra represents conservative tendencies, he (Vasquez Gomez) had sought to carry into effect the resolutions of the revolutionaries.

Madero, who is still at Toluca, tonight issued a manifesto in which he states that he fully approves the dismissal of Emilio Vasquez Gomez. How far this will strain the relations between Madero and Francisco Vasquez Gomez, brother of Emilio, who, it was supposed, was to be the Vice-presidential candidate, is not yet apparent.

STRONGLY OPPOSED.

But a group of Maderist leaders is strongly opposed to the retirement of Emilio Vasquez Gomez, and after an interview this morning with President De la Barra, in which the latter displayed a firmness with which he had not been credited, these leaders declared that they would not recognize the resignation of Vasquez Gomez, and unless the Minister were reinstated they would start a new revolution. All claim to have considerable forces still under arms in their respective States.

One of the dissenting leaders is Emiliano Zapata, a sanguinary chieftain of the State of Morelos. This is the situation tonight, and the capital is a prey to intense excitement. Nevertheless the government proposes to be fully prepared for emergencies and the President in an interview says that he looks for no disturbance of public order. Both Reyes and Madero published manifestos tonight in which they state they will be rival candidates for President, but there will be no other arms than those of legality and constitutionality.

GARRISON IS READY TO HELP THE REDS.

(BY DIRECT WIRE TO THE TIMES.)

EL PASO (Tex.), Aug. 2.—(Exclusive Dispatch.) Should the Magonista, followers of Eloy Magon, gain sufficient strength to attempt to take the town of Juarez, the majority of the present insurgent army would be with them and would fight alongside of the Reds in their efforts to capture the town as Madero did. This is the view of one of the officials of the customhouse, who is thoroughly disgusted with the situation at the present time.

"They would be fighting for just what we fought for when we took the town," he said.

Times Changed.

DEMOCRAT BRANDS BRYAN "FALSIFIER;" IS CHEERED.

(BY A. P. NIGHT WIRE TO THE TIMES.)

WASHINGTON, Aug. 2.—(Exclusive Dispatch.) Standing upon chairs, waving handkerchiefs and yelling loudly, Democratic representatives acclaimed Representative Oscar W. Underwood of Alabama, Democratic leader of the House, today, when he attacked William J. Bryan for criticizing his position on extension of the tariff revision program. It was the most remarkable scene in the House since the beginning of the extra session of Congress.

Exhorting Mr. Bryan, Leader Underwood, said, "I have seen Bryan, defended his own attitude in revision of the tariff and steel schedules

and said Bryan had placed upon every Democratic member implications unfounded in fact. He called in his Democratic colleagues of the Ways and Means Committee for corroboration of his attitude in committee and caucus.

BACKED BY KITCHEN.

Mr. Underwood was backed up in a similar striking speech by Representative Kitchen of South Carolina, long a devoted friend of Bryan.

Mr. Kitchen expressed the hope that any Democratic should call on Mr. Underwood and the

DAY WIRE TO THE TIM
INGTON, Aug. 4.

San Francisco, Calif. (AP)—A man apparently made a mistake by taking a milliner as a model for establishing a new line of lockers in the Tenth Avenue building at 10th and Market Sts. in San Francisco. When the latter arrived at work and made the discovery of the new construction, she opened for their use, and was immediately becoming acquainted with those horrid little boys and one young woman who had been hatted and sheathes. She indignantly viewed the recipients of the new hats.

Daughter of Powder King Fights Divorce.

Mrs. Madeline Dupont Bancroft, who yesterday filed answer to husband's charges in divorce suit, declaring he is the father of her child, whose paternity he denies.

**WANTS THE DECREE.
DAUGHTER OF DUPONT
FIGHTS DIVORCE SUIT.**

[BY A. P. DAY WIRE TO THE TIMES.]
WILMINGTON (Del.) Aug. 2.—The divorce proceedings begun recently by John Bancroft, Jr., against his wife, Madeline Dupont Bancroft, on statutory grounds, and in which he denied the paternity of her infant son, were complicated today when the wife filed a counter suit for divorce.

GIRL DRIVEN TO KILL.

(Continued from First Page.)

of it," cried the girl, "but to please Jim I said I would get it from the bank. Then he said—Oh, mamma, he said he'd do me a favor for me than for the girl north of Market street."

"In a moment I saw it was no use. I remembered the times he'd stayed in bed in the morning and looked at his hands and said these hands weren't made to work and told me to hurry up and earn something."

"AND THEN—THE TRAGEDY."
I remembered how I'd taken him to my mother's home Sunday and had chicken dinner for him, and gone with him every place that I thought would make him a better man, and worked days downtown and done the washing home nights—and then he could say what he did! I went out and bought the revolver."

"Where did you get the money for it?" asked her mother.

"I pawned the little watch you gave me," said the girl. "I'm so sorry, but I just had to."

"I said to the man, 'will this revolver kill a man—or a dog?' and he said it would."

Then, she said, she returned and killed Langley.

Mrs. Langley was assigned to the largest room in the Hall of Justice, and it was filled with flowers by the newspaper men who heard the story.

VICE-PRESIDENT DENIED.

Virginia County Officials Refuse to Let Him Vice Washington's Will on a Sunday.
[BY A. P. DAY WIRE TO THE TIMES.]
WASHINGTON, Aug. 2.—The will of George Washington is not exhibited on Sunday, even though the Vice-President of the United States requests it. The story ran that Vice-President Sherman, an ardent motorist, accompanied by friends, took a spin last Sunday in Virginia. Reaching Fairfax Courthouse they decided they would like to see the original will drawn by the first president. The party was directed first to the home of the deputy clerk of the county. The deputy expressed regret, but quite positively informed the vice-president that the rules forbade the courthouse, where the document is kept in a glass case, being opened on Sunday. Finding the official obstacle the party repaired to the home of his chief, some distance away. The clerk was as strongly rule-bound as his deputy and the vice-president and his friends left with their curiosity unsatisfied.

PAYS TO BE GOOD COOK.

Orphan Girl of Sixteen Finds Aged and Wealthy Husband Via Kitchen Stove.
[BY DIRECT WIRE TO THE TIMES.]
INDIANAPOLIS (Ind.) Aug. 2.—(Exclusive Dispatch.) Sly cupid alighted a solar plexus punch across today on Francis M. Tomlinson, wealthy farmer, 63 years of age, when Tomlinson led a blushing girl of 16 before Judge Newton S. Taylor, where the knot was tied. Tomlinson, tired of being a widower, wanted a wife who was a good cook. The bride, formerly Amy Todd of Bridgeport, is an orphan and has no worldly possessions, but as a cook she stars.

COL GREENE IN RUNAWAY.

Sustains Broken collar-bone and Other Injuries—Once Conspicuous in Copper Fields.
[BY DIRECT WIRE TO THE TIMES.]
EL PASO (Tex.) Aug. 3.—(Exclusive Dispatch.) Col. W. C. Greene, formerly one of the conspicuous figures in the copper field and at one time the opponent of Helms and other copper manipulators, came near losing his life yesterday at the camp where he made his start. While driving near his present home in California, Mex., Col. Greene was thrown from the buggy and dragged more than a block before he could free himself from the lines. The horses became frightened as Col. Greene was attempting to alight from the buggy. The vehicle smashed into a building and the horses were finally stopped. Col. Greene suffered a broken collar-bone and other minor injuries.

FLASH RULING OF ASSISTANT.

FOWLDER DATA SHOW REMSEN BOARD IS ILLEGAL.

Attorney-General, Who Promulgated Diametrically Opposite View, Admits That the Memorandum Is Genuine—More Developments in the Case of Dr. Wiley.

WASHINGTON, Aug. 2.—Sprung from an unknown source, but certified to in surprise by Atty-Gen. Wickersham, a memorandum by one of his assistants declaring the Remsen board illegal, a view exactly contrary to that officially promulgated later by Mr. Wickersham, featured today's meeting of the House committee investigating the charges against the Remsen pure-food referee board and Dr. Wiley.

SMOKE GONE.

CAMP DEAD.

Prosperous Village of Coram Made Desert Waste by Injun Invasion.

[BY DIRECT WIRE TO THE TIMES.]
CORAM (Shasta County, Cal.) Aug. 2.—(Exclusive Dispatch.) A month's time has seen this town depopulated from a prosperous camp, with a city government, to a waste of untenanted houses, vacated stores, empty saloons and unfilled lodging-houses. Everywhere is desolation. A bare fifty people tread the streets as against 2000 three years ago when smaller troubles were "but rumors and Judge Morrow had issued no injunctions. The blue column of smoke, for many years never failing, no longer tells its tale of industry. The great heaps of slag that recently reddened the sky nightly, and made Coram seem a veritable Pittsburgh from the railway depot, are but a recollection of the days that are gone.

SEARCH IN VAIN FOR REBS.

Eight Cubans Drop Out of Sight in Open Country in a Mysterious Manner.

[BY DIRECT WIRE TO THE TIMES.]
HAVANA, Aug. 2.—(Exclusive Dispatch.) Four hundred men of the rural guard and as many soldiers searched all today for Gen. Acevedo's rebel band but could find no trace of them. How eight men could have disappeared in the country near Havana which is neither woods nor brush is a mystery. Police Chief Aguirre has detailed a force for search and announces that he will pay for the funeral of Naranjo, the farmer supposed to have been killed by the revolutionists.

HIS HEART IRREGULAR.

But John W. Gates Is Taking Milk and Fruit Juices to Save His Life. Pneumonia Decreasing.

[BY A. P. DAY WIRE TO THE TIMES.]
PARIS, Aug. 2.—John W. Gates was stronger today, but his condition remained critical.

Mr. Gates is partaking of fruit juices and milk, and thus receives some strength and the pneumonia is decreasing. The kidneys, however, are abnormal and it is feared this may cause a renewal of the dropsy of the lungs, with which the patient has been attacked for the last two nights, but from the effects of which he was rescued oxygen. The heart action is irregular.

Dear Dental Delays

It costs money, trouble, and teeth to put off dental work from day to day, and no one suffers for it but yourself. I fill, crown, treat, bridge, extract, straighten teeth without pain. Obey that instant impulse! See Painless Parker first.

PERRIS IRRIGATED FARMS
For Real Money Making
If you want to make real profit from your acreage and see it growing in value until your land is worth at least twice its cost, buy in my Perris Irrigated Farms, located in the beautiful Perris Valley. I say you can double your money, at least, within two years' time—you may do better than this. The land I offer is selected property, now under cultivation, and sold with a valuable water right. My price is \$100 to \$150 an acre. It is in the district where alfalfa brings such steady profits to the grower—where pears, apricots, peaches and other fruits bring such handsome returns. Those who go in for general farming—raising potatoes, sweet potatoes, onions, etc., make almost unbelievable profits in this rich, fertile valley. I've got facts and figures here that will surprise you. And you can check them up and verify them for yourself. You can buy this land at only one-fourth cash and the balance in four equal annual payments, or you can make easy monthly payments if you prefer. I have arranged Free Excursions so that you can go over the property for yourself. It is near Riverside, and close to the city of Perris, so that city advantages are at hand. My interesting folder is yours for the asking. Call at the office or write today.

Financial. GREAT DROP IN GREAT STOCKS.

Standard Oil and American
Tobacco Suffer.

Heavy Selling on Curb Puts
Quotations Down.

Dividends Passed by Com-
pany Given as Reason.

(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, Aug. 2.—[Exclusive
Dispatch.] Standard Oil and American
Tobacco common stock furnished
the sensation of the day in the financial
district. Under heavy selling on
the curb market, tobacco sold off from
25 1/2 to 24 1/2, the lowest price of the
year, and a decline of twenty points
from closing figures yesterday. Around
1 o'clock, however, there was a slight
demand for the stock and it rallied
eleven points, going to 27 1/2. At the
same time, Standard Oil, under the
same continued selling, declined from
64 1/2 to 62 1/2, a decline of twenty-three
points, from closing figures yesterday.

The drop in tobacco common means
in one day a depreciation in outstanding
capital of \$4,000,000. The drop of
twenty-three points in Standard
Oil means a depreciation in less than
twenty-four hours, of more than \$19,-
000,000.

The break in tobacco followed the
announcement by the board of directors
that the regular quarterly dividend
of 2 1/2 per cent. and extra quarterly
dividend, would not be declared
because of prosecution for dissolution.
The drop in Standard is due to
the announcement of a plan of
reorganization.

OFFICIAL STATEMENT.
The official statement issued by the
tobacco company to its stockholders
today, gives the information that no
dividend on the common stock, will
be declared at the present time, which
would ordinarily be payable in September.

The letter to the stockholders
shows that the company is still en-
gaged on plans for dissolution and
its recreation, which shall be in
harmony with the Sherman anti-trust
law. The letter, in part, reads:

"The directors of the American To-
bacco Company are devoting them-
selves earnestly to the task of work-
ing out a solution of the problem
which shall command the assent of
court to which the whole matter is
committed."

REASON FOR PASSING.
"In the ordinary course, the regular
dividend upon the common stock
would be declared at the present
time, payable in September. Al-
though the earnings would amply
justify the payment of the usual di-
vidend, the directors feel that at
the present time, and in advance of
approval by the courts of any plan of
dissolution, it would be improper
and perhaps lacking in respect to the
court, for them to make any distribu-
tion of earnings to the common
stock, and have, therefore, determined
to omit the declaration of the usual
September dividend."

GRANGERS SNUB PRESIDENT.
Connecticut Farmers Decline to
Take Part in Fair at Which Mr.
Taft Will Be a Guest.

(BY A. P. NIGHT WIRE TO THE TIMES.)
HARTFORD (Ct.) Aug. 2.—[The
Times this morning says that the
Connecticut State grange has notified
the Connecticut Fair Association that
it cannot participate in the reception
to be tendered President Taft, when
he comes to the fair in Charter Oak
Park, early in September, as a guest
of the Connecticut Fair Association.
The attitude of the grange is at-
tributed entirely to the President's ad-
vocacy of reciprocity with Canada.

F. E. Duffy, whose protest in Wash-
ington at the time of the reciprocity
hearings created wide-spread com-
ment, has charge of the livestock at
the Connecticut Fair. In the inter-
view in The Times, he says:

Some time ago, the manager of
the fair invited the grange to partici-
pate as the usual grange day was to
be observed. When it was learned
that President Taft had accepted an
invitation to attend the fair, the situa-
tion changed. The fair authorities
have been notified that the grange
will not take part in the fair this year.

"Why?" he was asked.
"For the reason that the grange is
opposed to the reciprocity idea in all
its aspects, and as President Taft has
been the leader in that movement, the
grange does not care to take part in
any event in which he is a guest."

"FOUR HUNDRED" IN COURT.
Heavyweight Tells of Chair Collap-
sing While Visiting Folks Living in
Another Family's Home.

(BY DIRECT WIRE TO THE TIMES.)
JOPLIN (Mo.) Aug. 2.—[Exclusive
Dispatch.] Representatives of Joplin
"Four Hundred" turned out as
witnesses in a case before Justice of
the Peace A. J. Earl this afternoon,
in which Mrs. Henrietta G. Glenn sued
F. Miller, a lumber magnate, for
\$28.85 for alleged damages done to
Mrs. Glenn's magnificent home and
house furnishings at No. 661 North
Pearl street, of which Mr. and
Miller were occupants from June 15,
1910, to June 15, 1911. Now the
Millers are at the Hotel Connor and
happier. A jury of six awarded the
plaintiff \$1 and costs. Spectacular
evidence for the defense was intro-
duced.

Dr. A. R. Snyder, weight 220
pounds stripped, told in detail how
one of Mrs. Glenn's porch chairs col-
lapsed while he was visiting the
Millers. The defendants sprang
to \$25.00 for furnishings left in the
Glenn home.

Mrs. Glenn originally sued both Mr.
and Mrs. Miller for \$200 damages.

TOUGH ON COL. ASTOR.
Law Says He Must Wait Four More
Years Before He May Marry Miss
Force.

(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, Aug. 2.—[Exclusive
Dispatch.] Lawyers say that Col.
John Jacob Astor cannot remarry in
this state for five years following the
decree of divorce granted to Mrs. Astor
in March, 1910.

Astoria, where engagement to Miss
Force was announced in March, 1910.

the party was Mrs. William H. Force,
mother of Miss Force, and several
others. The Noma was bound for
Newport, where Col. Astor, his fiancée,
and her mother will remain until after
definite date has been set as yet for
the wedding.

BOY DUPES ANGELENO.
Lad of Fourteen Deceives
Cleveland Man, Who Is
Now in Jail.

(BY DIRECT WIRE TO THE TIMES.)
MILWAUKEE, Wis., Aug. 2.—[Exclusive
Dispatch.] A boy of fourteen, who
deceived a Cleveland man, who is
now in jail, is being held in the
Cleveland house of detention.

the court today, had never been fooled
before, was duped by a boy thief in a
local hotel to the tune of \$500.

The thief, Howard Minema, age
14, is declared to be the cleverest boy
crook in America, and confessed after
his capture to nearly twenty suc-
cessful robberies here in ten days.

He approached Campbell with a
request for information as to a hotel
where he could stay without paying
in advance until his father's arrival
from the West. Campbell took the
boy to his room and during the night
the boy disappeared with Campbell's
money and jewelry, all of which was
recovered later.

ARBITRATION A GO.
France Will Sign Treaty
United States at Two O'Clock
Time This Afternoon.

(BY A. P. DAY WIRE TO THE TIMES.)
PARIS, Aug. 2.—It was an-
nounced today that the Franco-American
treaty will be signed at 2 o'clock
tomorrow afternoon, Paris time.
The French Ambassador to the U.
States, on behalf of France,
Two copies, each containing the
text in English and French, will be
sent to Washington to be
retained here and
other sent to Washington to be
retained there.

"Tige" Arrives

—Here's "Tige," the yeller dorg, formerly mascot for the Prairie Schooner, which is piloting
Ocean Touring Party to Los Angeles. "Tige" deserted the party at Chicago—and, later, with
started to race to Los Angeles to be in time to greet the tourists. The whole country has
and Chicago has been watching for "Tige." An Examiner photographer found him on Broadway yes-
ternoon.

This certainly is a small world after all.
And the telegraph, newspaper, railroad, telephone,
automobile and ocean liner have made it smaller.

—we dash 4500 miles across the continent and are
greeted on our arrival by a friend who bid
us goodbye at home.

—a desperate criminal escapes from Europe on a fast
ocean liner and is caught in midocean by "wireless."

—England's King is coronated yesterday and almost the
same evening we see the Royal Pageant pass us
at a moving picture show.

—an inventor this afternoon gives something entirely new to
Progress—tomorrow morning's papers in England
tell the story of his achievement—and by noon the
inventor closes a five-years' contract with a concern
in Germany by telegraph.

RECEIVES POEM WHILE IN JAIL.

In Sinclair, Immortalizes Night Behind Bars.

Poses While Making Little Ones of Big Ones.

Penned Between Halls Wheelbarrow Loads.

DIRECT WIRE TO THE TIMES. WASHINGTON (Del.) Aug. 2.—(Exclusive Dispatch.) Upton Sinclair, author of "The Jungle," is in jail for violation of Sunday laws in Delaware. He had lots to say about the prison, and he wrote a poem while making little ones of big ones. The poem, "The Menagerie," is a satire on the prison system. It was written while he was in jail, and it was found in his wheelbarrow when he was taken out of jail.

INSPIRED TO POEM. Upton Sinclair, author of "The Jungle," is in jail for violation of Sunday laws in Delaware. He had lots to say about the prison, and he wrote a poem while making little ones of big ones. The poem, "The Menagerie," is a satire on the prison system. It was written while he was in jail, and it was found in his wheelbarrow when he was taken out of jail.

author of "The Jungle" and single tax theorist, who was sent to jail for violation of Sunday laws in Delaware. The verses, born of his experience there, are printed herewith.

IS RESCUED FROM DEATH, SHUDDERS AT THE LIGHT.

Young Man Dug Out of the Earth That Enclosed Him in Father's Shaft, Buried Alive Since Sunday, Overwhelmed by Sun and Air, but Will Resume His Work in the Mine Today or Tomorrow.

[BY A. P. NIGHT WIRE TO THE TIMES.]

JOPLIN (Mo.) Aug. 2.—Though he has just been rescued after being entombed in a mine drift seventy-two feet below the surface of the earth for three days, Joseph Clary, taken from his prison here, will resume his mining operations tomorrow, if doctors permit him to leave his darkened room. If not tomorrow, he will be at work as usual Friday morning.

Mining has no terrors for him, Clary says, because he believes he has had his share of accidents. When the last spool of earth were removed by workmen in the shaft and they dropped through into the drift, Clary threw himself into their arms and wept while the shaft of thousands cheering at the mouth of the mine echoed down the shaft. Three workmen were digging in the narrow shaft when the bottom gave way and they dropped into the drift at 4:15 o'clock. Clary saw the light of day and looked upon fellow miners after a period in darkness which, though reckoned by him to be some thirty-four days, was really only three days and 45 minutes.

GREATLY WEAKENED. Clary, though evidently in a fair condition of health, was greatly weakened. The emotion he showed at the sight of his rescuers and the deathlike pallor of his face brought tears to the eyes of the hardest, worn-out miners. The shouts from the mouth of the shaft, sounds from the outer world, and the sunbeams of sunshine and moonlight, which he had never seen, were all new to him. At a sign from the rescuers, a physician was lowered. He administered stimulants. Clary was hoisted to the surface and set foot on top of earth ten minutes after he was found.

Deaf and Blind Institution.

SUBORDINATES FLOCK TO ASSISTANCE OF PRINCIPAL.

[BY A. P. NIGHT WIRE TO THE TIMES.]

BERKELEY, Aug. 2.—That beneficial changes have been made by Principal Douglas Keith and that the discipline and moral tone of the California Institution for the Deaf and the Blind are good, was the principal testimony given this morning in the investigation by the Governor.

Letters were introduced by Attorney Warren Oliver, Jr., representing the defense, which expressed the esteem of pupils of the institution for Principal Keith and their disbelief in the charges made. During the examination of W. R. Rundo, supervisor of boys in the deaf department, the Governor inquired into a rumor, which had reached him, that Rundo and other teachers in the institution feared dismissal if they testified against the management. Rundo declared that he had not been warned. His testimony was that the school had shown efficiency under Keith.

Pro. Otto Fleisner, head of the music department of the institution, testified that Keith had taken steps

board shall fall to fill a vacancy within thirty days, they shall immediately take steps to call a political election.

WOOL TARIFF TO CONFERENCE. FIRST MEETING TOMORROW. WASHINGTON, Aug. 2.—The wool tariff bill was formally sent to conference today when the following Senate conferees were named:

Messrs. Penrose and Cullom, regular Republicans; La Follette, insurgent Republican; Bailey and Simmons, Democrats.

The House Conference Committee was appointed yesterday.

The conferees of the two Houses on the wool bill will hold their first meeting Friday morning. Members of the conference expressed confidence of agreement without prolonged meetings.

FREE LIST CONFERENCE. WASHINGTON, Aug. 2.—The free list tariff bill, as passed by the Senate

yesterday, was returned to the House today. It has been practically agreed to in the House that the bill shall be sent to a conference committee immediately. Democratic Leader Underwood predicted again today that the bill speedily would be agreed upon and sent to a President.

Bring Us Your Tailoring Prescription

We'll fill it and fill it right. We've a new cutter who can execute any lines and angles your fancy hits on. He's a wonder with the shears—makes them do tricks, if necessary. Our assortment of elegant fabrics at \$30 upwards will captivate you, we're sure.

Let Us Show Them to You Today.

TO STUDY THE SEXES.

A Departure in Curriculum Planned for the University of Puget Sound, a Methodist Institution.

TACOMA, Aug. 2.—[Exclusive Dispatch.] The University of Puget Sound, Methodist, today announced a course on sex and morality to be given this coming year, by Dr. Alice Smith, a Northwestern University alumna. It will be open to both sexes, but will not be compulsory.

"The course will be the outgrowth of years of study, which I have longed to apply. It will be a clear series of lectures, calculated to correct the ignorance, which is making our young people the prey for unnatural worldliness. I do not believe there is anything like it in the country, but it will represent the most advanced ideas of advanced thinkers," said Dr. Smith today.

Though a daring departure, the university authorities are confident it will prove the best move yet made in their aim to keep pace with the times. So directly unique that there are no suitable text-books on the subject, the course will mark an epoch in college education in the Northwest if not in the country.

"WHAT NEXT?"

That's One of the Questions Corporations Are Asking of the Tax Levies in Sacramento.

SACRAMENTO (Cal.) Aug. 2.—[Exclusive Dispatch.] "This is the fourth tax payment by corporations. What is the hell next?"

That is a sample of the comments corporations write on their tax return slips sent to State Comptroller Nye. The one quoted, from a San Jose corporation, accompanied a return on a franchise tax.

State Comptroller Nye says that many of the comments are even more to the point than the one between quotation marks. Some of them contain curses against the administration. The Legislature, however, is not in general. This is the method used by some corporations to signify their dissatisfaction over the way Tax Amendment No. 1 is working out in separating State and county taxes.

DOCTOR GOES TO PRISON.

Physician Whose Criminal Operation Cost Life of San Francisco Girl Loses His Appeal.

SAN FRANCISCO, Aug. 2.—The State District Court of Appeals affirmed judgment today in the case of Dr. Thompson, convicted of murder in the second degree in the case of Eva Swan, who died in May, 1910, from the effects of a criminal operation.

Thompson, whose real name is said to be Carpenter, must now serve the twenty-year sentence imposed by Superior Judge F. P. Dunne.

Some time after the girl had been reported missing, the body was found buried under the flooring of a basement in a vacant house by persons who rented the place. Evidence showed that Thompson had taken this means to protect himself from prosecution.

His appeal, now denied, was made on technical grounds.

PHILADELPHIAN HONORED.

Is Elected to Highest Office in Catholic Order of Knights of Columbus at Detroit.

DETROIT, Aug. 2.—The Knights of Columbus in annual convention today, elected James A. Flaherty, Philadelphia, Supreme Knight, and Martin Carmody, Grand Rapids, Mich., Deputy Supreme Knight.

The National Board of Directors includes James McGraw of Oklahoma City.

Hot Weather Hurts the Skin

Poisonous perspiration causes rashes, hives, blotches, pimples and itchy heat, often the beginning of serious skin troubles.

To wash away the poison entirely, apply a simple solution known as D. D. D. Prescription for Eczema. D. D. D. is generally sold in 1.00 bottles, but for 25c we can now give you enough to prove that the very first drops soothe and heal the inflamed skin as nothing else can.

We vouch for the wonderful properties of D. D. D., for we know that it is a certain relief for all kinds of skin troubles.

John D. Rockefeller listened to his Wife

The local papers recently published an interview wherein that master money-maker gave credit for a good deal of the wisdom used in his investments. Women are usually cautious than men and in this case the wife's advice held investments back quite often. The husband might have been willing to risk. The detailed history of the growth of the feller wealth shows that some strong, guiding hand, now acknowledged to be that of his wife, was continually pointing out the dangers of gambling singlehanded and the added investments joined with others. Co-operation in investing the first Dollars and the funds taught Rockefeller to later use that same force of Co-operation in joining the independent interests into co-working groups.

What Co-Operation did for Rockefeller, it will surely do for YOU

COMMONWEALTH HOME BUILDERS is a strictly Co-operative Real Estate and Building business in which, since the 100 first organized it over 4 months ago, more than a hundred men and women have now bought over a Million and a Quarter shares of COMMONWEALTH HOME BUILDERS has no salaried officers, has issued no stock, is to divide ALL profits among ALL shareholders annually, in addition to the Dividends earned. Small and large stockholders are on the same level. There is no better business in growing Los Angeles today than Real Estate and Building Homes. Will facts before you—

the injured who required attention were taken to the Pacific Hospital at Omaha.

The other passengers on the train for Kansas City were not injured.

The engineer, assigned to service of the road this morning, explained the reason that he forgot his orders and assumed entire responsibility.

Colorado River left Kansas City at 11:15 a.m. and arrived at Pueblo at 1:15 p.m.

The conductor, who was given orders to allow the baggage switch to allow cattle train for Kansas City, forgot to do so.

King forgot to do so. The baggage switch was not allowed to pass the passenger car at the rate of forty-five miles per hour.

Two miles west of Wagstaff, the curve in the track and the baggage switch collided.

King said he saw the freight train, but cannot say it was he did not stop.

Fortifications Pushed. The Army Officers in Charge of Express Satisfaction at the Made.

WORK, Aug. 2.—Fortifications in the Panama canal are progressing and the army officers command the canal fortification board, they have today said they are satisfied with its progress.

Leonard Wood said: "I have inspected the sites for the canal fortification board. The work will be completed far ahead of the schedule."

"Tige" Arrives

—Here's "Tige," the yeller dorg, formerly mascot for the Prairie Schooner, which is piloting the "Ocean to Ocean" Touring Party to Los Angeles. "Tige" deserted the party at Chicago—and later, with a colored boy, started to race to Los Angeles to be in time to greet the tourists. The whole country between Los Angeles and Chicago has been watching for "Tige." An Examiner photographer found him on Broadway yesterday afternoon.

This certainly is a small world after all. And the telegraph, newspaper, railroad, telephone, automobile and ocean liner have made it smaller. —we dash 4500 miles across the continent and are greeted on our arrival by a friend who bid us goodbye at home. —a desperate criminal escapes from Europe on a fast ocean liner and is caught in midocean by "wireless." —England's King is coronated yesterday and almost the same evening we see the Royal Pageant pass us at a moving picture show. —an inventor this afternoon gives something entirely new to Progress—tomorrow morning's papers in England tell the story of his achievement—and by noon the inventor closes a five-years' contract with a concern in Germany by telephone.

decline Talmage Force was announced yesterday, can apply at the end of five years to have the terms of the divorce decree so modified that he may wed anew. Miss Force is 18 years of age and Col. Astor is 47. He was divorced on November 9, 1909, from his first wife, who was Miss Ava Willing of Philadelphia. The future mistress of the Astor mill, is tall and graceful with a mass of brown hair which she wears in lustrous curls. She has brown eyes and strong features. Col. John Jacob Astor cannot deny the fact that he was married to Miss Madeline Force went aboard the yacht, the Norma, from the New York Yacht Club landing at 11 o'clock on East Twenty-third street, in the party was Mrs. William H. Force, mother of Miss Force, and several others. The Norma was bound for Newport, where Col. Astor, his fiancée and her mother will remain until after the wedding. BOY DUPES ANGELENO. A lad of fourteen described as the cleverest baby crook who has been known in the city since the time of the "Baby Face" was yesterday arrested by the police. The boy, who is named Angelo, is a native of Los Angeles and is a member of the "Baby Face" gang. He was arrested while attempting to steal a car. He is a very clever and cunning boy and has been known to steal cars and other property. He is now being held in custody and will be tried in court.

the court today, had never been fooled before, was duped by a boy thief in a local hotel to the tune of \$500. The thief, Howard Minnema, age 14, is declared to be the cleverest boy crook in America, and confessed after his capture to nearly twenty successful robberies here in ten days. He approached Campbell with a request for information as to a hotel where he could stay without paying in advance until his father's arrival from the West. Campbell took the boy to his room and during the night the boy disappeared with Campbell's money and jewelry, all of which was recovered later.

ARBITRATION A GO. France Will Sign Treaty United States at Two O'Clock Time This Afternoon. (BY A. P. DAY WIRE TO THE TIMES.) PARIS, Aug. 2.—It was reported that the Franco-American arbitration treaty will be signed at 2 o'clock tomorrow afternoon, Paris time, by the French Ambassador to the United States, on behalf of France. Two copies, each containing the text in English and French, will be signed. One will be retained here and the other sent to Washington to the signature of Philander C. Fox.

EDISON OFF FOR HOLIDAY. Will Make Automobile Tour of Europe; Some Flashes From Inventor's Shred Brain. (BY DIRECT WIRE TO THE TIMES.) NEW YORK, Aug. 2.—[Exclusive Dispatch.] Thomas A. Edison today started for a European trip for the first time in twenty-two years. With him on the tour was his son, Charles. In London Mrs. Edison and her daughter, Madeline, will join them. The family will make an automobile tour of the continent. Edison was asked if he had anything new up his sleeve. He replied: "No! I have just finished something new; my talking pictures are complete; two hundred sets of them have been made and they are wonderful. You ought to see them and hear them." Here are some Edison flashes from his conversational short circuit: "I expect to live 50 years with my system of living. Proper eating, sleeping and clothing makes up my system. I stay in bed six hours and it is solid sleep and quite enough. I never intend to retire. I work hard and the earth is a paradise for me. I don't believe there is any paradise here. I am better able to keep my health than I was at 25. I eat what I want and I am not much—only a handful of solids at a meal."

TROOPS IN REDRESS.

Continued from First Page.)

Juneau," the custom official says.

"When we fought in the battle

of Juneau, we were given our

rights as Madero promised us.

Instead, he has done nothing, absolutely

nothing, but has been waiting.

After Diaz resigned there was no effort

made to give us what was promised.

We were given our rights as citizens.

We fought to put the Federalists, who

had ridden the country to death, out of

power. Now Ernesto Madero, a cousin

of Francisco Madero, wishes to

replace us with these same Federalists

whom we risked our lives to defeat

the revolution. Had we not

taken up arms against this man, we

would all have been thrown out of

our positions that we had fought for

and these men who went to El Paso

and refused to defend their town

would have been given our places.

Do you blame us for feeling disas-

ted and mistreated by the men whom

we helped to elevate to their present

position?"

With two of the boosters who suc-

ceeded in landing the 1912 Standard

Oil Company in the Los Angeles

Hotel, the Los Angeles Standard

No. 288, Loyd Order of Moore, will

be a delegate of thirty-nine mem-

bers to Detroit on the 15th inst.

to endeavor to secure the conven-

tion of the Supreme Lodge for this city

next year.

In a palatial special train equipped

with the salt Lake, that will be as

fine in its appointments as the Shriners

special which went to Albany last

month, the Los Angeles delegates and

250 others from Southern California

will carry to the Michigan city the

invitation of Los Angeles to meet here

next year.

Last night a committee consisting

of W. A. Alderson, dictator of the local

order, Newton J. Skinner, T. L.

O'Brien, J. Parker, Mottley H. Pitt,

Len Behrmer and R. M. Lusk, presi-

dent of the City Council, was ap-

pointed to the things best calculated

to bring home a bacon. Skinner is

chairman of the committee.

Kansas City is the only serious rival

of the city for the convention next

year, and the Angeles herd expect to

vanquish that delegation when they

propose. They declare if the con-

vention is held here next August or

September, the largest number of

people will attend the Supreme

Lodge from any city.

Records in going after the Sup-

reme Lodge session, the crowd from

No. 288 will fight for the vice-pres-

idency for W. A. Alderson, chief

Moore of the local herd.

The committee will begin a cam-

paign today to obtain the support

of the City Council, Realty Board,

Chamber of Commerce, Convention

League and all the other civic clubs,

MOOSE GO FOR BIG CONVENTION.

IN PALATIAL SPECIAL WILL STORM DETROIT.

Expect to Bring Great Meeting Here Next Year and to Land High Office for City.

City Is Rival, but Not Feared.

Some Boosters.

THE LAND AND ITS FATNESS.
 Permanent exhibit at the Chamber of Commerce building, 100 South Broadway, open all day.

BUREAU OF INFORMATION.
 Times Office, No. 211 South Spring street.

NEWS IN BRIEF.

Lecture on Abnormal Children.
 Dr. Grozmann of Plainfield, N. J., will deliver an address in the First Methodist Church, this afternoon at 4 o'clock, on "Abnormal Children." The public is invited.

W.C.T.U. Open Air Meeting.
 The Los Angeles Central Women's Christian Temperance Union will hold an open air meeting at 10 o'clock tomorrow morning at the residence of the president, Mrs. A. Hand, in Inglewood.

To Hold Basket Picnic.
 The Ladies' Auxiliary to Roosevelt Camp No. 4, United Spanish War Veterans, will hold a basket picnic at Nymore Grove next Sunday.

To Discuss Normal Side.
 A meeting of the Northwest Improvement Association has been called for Saturday evening at the Logan street schoolhouse for the purpose of discussing the proposition to locate the State Normal School near Echo Park and Sunset boulevard. The public is invited.

Dry Farming Congress.
 The official call of the Sixth International Dry Farming Congress has been received by the Chamber of Commerce and is president authorized to appoint a delegate. The meeting will be held in Colorado Springs, October 16 to 20.

Receiving Committee.
 Vice-President Osborne of the Chamber of Commerce was authorized yesterday to appoint a committee of ten to assist in receiving the Ocean-to-Ocean Tour en route to ten automobiles. The party due about next Thursday will be met in Hollywood where a luncheon and reception will be given.

Buried in Ventura.
 J. T. Kierman, a real estate operator of this city, whose body was found Monday near Wheeler Hot Springs, was buried in Ventura yesterday, the railroad refusing to bring the remains here for fear of violation of the sanitary laws. Kierman went to Wheeler Hot Springs for a rest and died of heart disease while alone in the mountains.

Suicide Substitution.
 A suitcase containing wearing apparel and jewelry valued at \$100, belonging to Miss Jane Whitney of Ocean Park, was taken from a Grand Avenue car shortly after 6 o'clock last night. Miss Whitney left it on the rear end of the car and got off to find another car in the place of the substituted case bears the initials "R. T. C." Miss Whitney was on her way to the home of Mrs. A. Hines, No. 3200 Figueroa street, a cousin.

BREVITIES.

Bungalow Inn, up in Laurel Canyon, is the place where you get a real fried spring chicken with hot butter biscuits and honey. Take Hollywood car marked Laurel Canyon, Hill street station. Automobile parking a specialty. For reservations phone Sunset Hotel 5581.

Hotel Roslyn and Statik House. Excellent meals, 25 cents. Delightful diners, Sunday eve, 25 cents.

Hotel Roslyn and Statik. Best 25-cent meals. Sunday eve, 25 cents. Dr. Ralph Hagan has returned.

WILL TEST RAILROAD LAW.

Santa Fe is charged with operating trains with insufficient force. "Gentleman Burglar" caught.

SAN BEINARDINO, Aug. 2.—The Santa Fe Railroad Company was made defendant in a suit filed today in the township court for the alleged violation of the full crew bill. Charles E. Flick, stenographer in the prosecutor's office is the complainant. The suit is one of several, inspired, it is claimed, by the Brotherhood of Railroad Trainmen, in order to test the validity of the new law.

It is charged in the complaint that the Santa Fe, today, in its train No. 41, consisting of a locomotive, baggage car and three passenger coaches, between San Bernardino and Los Angeles, via the "Pasadena Route," with but one brakeman, while the law provides for two.

The penalty for the offense is a fine not to exceed \$500 or imprisonment in the county jail not to exceed six months, or both such fine and imprisonment.

BURGLARY CHARGE. James Boone, alias Frank Harmon, was taken back to Los Angeles today to answer a charge of burglary. Patrolman G. Roberts of Los Angeles made the trip here after the accused, Boone, was recognized on the streets. He had been a fugitive from justice, having escaped Patrolman Roberts at Los Angeles two years ago. When recognized here he made a speedy race south on E street, scaled a fence, and was captured single handed by Tom Jefferson, a negro stable boy, who turned him over to the officials. It is said here Boone is known in Los Angeles as the "gentleman burglar."

AN INTENSE DESIRE to enjoy the wonderful climatic and scenic beauties of Southern California, and an earnest appreciation of its splendid commercial and industrial possibilities, induced many eastern and northern property owners to advertise their holdings in the "For Exchange Eastern and Northern Property" columns of The Times "Liner" section. It pays to read these announcements.

GOVERNMENT LAND GROWING SCARCER. If you intend locating in government land there is no time like the present. Secure a desirable relinquishment from among those advertised in the "Government Land" columns of The Times "Liner" section.

Safe, but Where?

CHILD HIDING FROM MOTHER.

HUMAN SOCIETY MANAGER IS THREATENED WITH SUIT.

Parent of Girl Learns That She Is Safe, but Cannot Find Out Where She Is, and Probation Officer Says He Will Bring Habeas Corpus Proceedings.

Declaring that Mrs. Clara V. Kubel, manager of the Human Society, has aided a runaway girl to evade her parents without giving the latter any opportunity to have an investigation, Leo F. Marden, City Probation Officer, announced yesterday afternoon that he will apply for a writ of habeas corpus this morning to secure possession of the girl, who will then begin prosecution of Mrs. Kubel on a charge of contributing to the delinquency of a minor child.

Julian Harrison, 14 years old, No. 747 Gladys avenue, is the girl. She disappeared from her home July 19. Officer Marden was asked by the girl's mother who by a second marriage has become Mrs. C. A. Goble, to find the girl.

Marden called a description of the girl to be published, and a day later the mother received a letter from her in which the child said she was "having a dandy time," but met many fine people, and was having some beautiful dresses made at someone else's expense. The girl described the dresses as the latest style, the best of material and tight fitting. She did not give her address and said she assisted in the English department of the High School.

The mother became hysterical. She believed her daughter was in improper surroundings. The only possible clue to the place where the girl was staying was the stamp on the letter, which bore the perforation of the Los Angeles Gas and Electric Corporation.

Marden visited the office of the gas company and was told that but few men in its employ had seen the stamps, and they would be questioned.

The mother had in the meantime become frantic. The surroundings in which she imagined her daughter to be so proved upon her mind that she told Marden yesterday that "Purina" for sale" columns of The Times "Liner" section.

"A STITCH IN TIME saves nine," so the old saying runs. You can share in this saying, which is one of dollars also, by consulting the "Purina" and "Breakfast" columns of The Times Classified section.

MANY PERSONS spend sleepless nights due to their inability to make "both ends meet." A heated conversation ensued between Mrs. Kubel and Marden, at the end of which she remained obstinate. Marden declared, Mrs. Kubel said she believed the girl is all right where she is, and that she may let the matter drop.

When asked for a statement last night Mrs. Kubel said she did not tell the mother that the girl had been found because the latter did not wish to go home. Beyond that, she said she has nothing to say except that the girl is "developing" in the case today.

When told by Marden that she will begin action against her she replied that she would wait a week or two between the girl and her mother Friday. The mother, however, is unwilling to wait, and has urged Marden to proceed.

Marden afterward stated that he will bring an action against the persons who are taking care of the girl.

WOULDN'T TELL HIDING PLACE. Second-hand Dealer, Wanted for Shooting, Nabbed When He Appears on Street After Absence.

Morris Levy, a second-hand dealer, was arrested last night on a charge of assault with intent to commit murder, the victim being Harry Gasquet, alias Singleton, at the latter's room on the night of February 14.

These men, with George Morris and Bertha Clark, alias Myrtle Howard, had gathered to smoke opium in Gasquet's apartments, where they believed themselves free from police interference. Later a quarrel arose among the male members of the party as to which one should roll the next "roll" for Bertha. In the melee which followed, Levy is alleged to have drawn a revolver and shot Gasquet in the neck. Before the officers arrived the participants had vanished and it was not until the next day that Gasquet applied at the Sisters' hospital for the treatment of his wound. He was subsequently located and sent to jail on a vagrancy charge.

Last night Levy appeared on Spring street for the first time since the shooting and was nabbed by Detectives Cowan and Ingram. He declined to enlighten the officers as to his hiding place, but intimated that he had been concealed from friends.

SCANDINAVIAN DAY. Tomorrow will be Scandinavian Day at the Votes for Women Club headquarters, the club having invited E. Norwegians, Swedes and Danes to visit their rooms, drink suet punch and listen to speeches by Miss Irene E. Foy and others. Men and women young and old are invited, and it is possible that a Scandinavian suffrage organization will be formed. This meeting is a forerunner of a mass meeting of Scandinavians to be held in September.

OPPORTUNITY KNOCKS—and not in vain—for those who carefully day after day read and take advantage of the countless bona-fide bargains enumerated in the "Business Chance" columns of The Times "Liner" section.

IDLE MONEY does not earn dividends. If you have unemployed capital, start it doing something for you. The "Money Wanted" columns of The Times "Liner" section afford many opportunities for making safe loans at good rates of interest.

Special Excursion to Salt Lake City. August Optics Convention, 1000 members, from Los Angeles, will depart for Salt Lake City, Utah, on August 12, for the purpose of attending the convention of the American Optical Association.

POPULAR MERCHANT PASSES.

Pomona Business Man Dies as Consequence of Contracting a Severe Cold—Will Equip School Buildings.

POMONA, August 2.—The death of J. Macenah Powers, president and manager of the Powers Shoe Company, which occurred in Pasadena last night, has shocked a wide circle of friends here although it had been known for sometime that Mr. Powers was seriously ill. He had not been engaged in active business for several months, seeking to regain his health which commenced to fail months ago following the contracting of a severe cold. A while ago Mr. Powers went to the California Hospital for treatment and was later taken to Pasadena.

The deceased was a young man of sterling worth, possessed of many friends and by close application has built up a splendid business here. He was about 30 years old and was a member of the local lodge of Elks and of the Pomona Masonic Lodge, Chapter 102 of the Pomona schools, and two brothers, Schoff and Walter Powers. Funeral services will be held on Friday afternoon under Masonic auspices.

At a meeting of the local board of education, held last evening, it was decided to equip the Hamilton and San Antonio-avenue grammar schools with apparatus for domestic science instruction. This will improve the over-crowded conditions in the domestic departments of the other grammar schools.

A. E. Donahue, head of the commercial department of the High School for some years, has tendered his resignation in order to commence the practice of law in Los Angeles. F. L. Blinhammer, a graduate of Northwestern University, has been chosen as assistant in the English department of the High School.

After packing and shipping 1200 crates of oranges for the season, the Pomona Fruit Growers Exchange has practically closed until the holding in the pre-cooling rooms of the packing-house and will be shipped out soon.

The Pomona cannery has just finished canning 550 tons or 410,000 cans of apricots and will soon commence to pack a large output of peaches.

FINE OLD FURNITURE can be bought at ridiculously low prices from persons whose addresses are given in the "Furniture" and "For Sale" columns of The Times "Liner" section.

"A STITCH IN TIME saves nine," so the old saying runs. You can share in this saying, which is one of dollars also, by consulting the "Purina" and "Breakfast" columns of The Times Classified section.

MANY PERSONS spend sleepless nights due to their inability to make "both ends meet." A heated conversation ensued between Mrs. Kubel and Marden, at the end of which she remained obstinate. DEADMAN'S AN ELLIS ISLAND.

Government Builds for Future Los Angeles Harbor.

Plans Afoot for Handling a Flood of Immigrants.

San Pedro to Be the Greatest Station on Coast.

That the port of Los Angeles is to leap in two years from a position of practically no importance from the standpoint of immigration of foreigners, to the leading station of the Pacific Coast is the belief of immigration officials who are now actively preparing for the transformation. Within comparatively speaking, a few days the inspectors in the district have been compiling data and making plans and suggestions for the officials at Washington to provide for it.

Steamship officials have already placed the port of Los Angeles on their charts as one of the important stopping points on the Western coast. It is anticipated that great numbers of immigrants will be coming to the port of Los Angeles as a part of the long trips.

The new condition will mean the establishment of a regular station, such as is now in use at New York. As islands are the most useful for such purposes, it is not anticipated that any of the natural advantages of our port will be overlooked.

Dead Man's Island is looked upon by the officials as the ideal spot for the location of such a station. Whether it will be double duty for the immigration and customs departments is a matter of speculation only.

As history goes, the anticipated transformation of San Pedro will be Aladdinlike. One year ago the immigration was so small that very little attention was paid to it. About that time Charles T. Connelley, appointed inspector in charge of the Southern California district. He found that there was not a single port which could boast of a resident inspector.

There are inspectors stationed at Port Harford, San Pedro, Santa Barbara and San Diego. Inspectors are dispatched from this city to look after the business of such ports as Redondo.

A TENFOLD INCREASE

As at present there are probably no more than 5000 aliens who come through the ports of Southern California in a year, the task is not a great one. But it is anticipated that the first year after the opening of the canal the immigration will increase tenfold.

Inspector Connelley admitted yesterday that one of the duties of the present of the local immigration officials is to prepare for the future. "As it is likely that the immigrants will come directly to the West Coast, instead of landing at New York, on account of the small difference which will be made in the transcontinental fares, there will be a great increase in our work. And San Pedro is naturally the port where the majority of the immigrants for this part of the country will land."

ORDERS AS CERTIFIED

City Prosecutor Preparing to Notify Dealers of Provisions of Ordinance Requiring Tags Stating Amount Debited.

City Prosecutor Guy Eddle, is preparing to notify all dealers in fuel and ice that, in the future, they must strictly observe the city ordinance requiring them to give a certificate telling the exact amount of fuel or ice sold to each customer. The ordinance is in all orders of 100 pounds and over, and a dealer's tag with every order that amount.

The certificates must be signed by the City Sealers, in the large amounts and the tag by the dealer. Violations of the ordinance are punishable with fines ranging from \$10 to \$500 with the alternative of from one to 250 days in jail.

Votes-for-Women Lent

THEY'LL GIVE UP CANDY FOR SAKE OF SUFFRAGE.

THE DON-DEE versus the ballot and suffrage weighed in the balance against soda water is now the mighty issue in the vote for women campaign. The suffragists of Southern California yesterday pledged themselves to the sacrifice of their nearest and dearest diversions in order that the cause might be furthered by the amount of money which they would have spent on said diversions.

Only for a week, however. It will begin on the 14th inst., and will make history as history was never made before. It will be a week of self-denial, a kind of women-suffrage humbling of the flesh for the vote. It will be the most remarkable exhibition of faith proven by woman in the suffrage campaign has yet produced.

Self-denial week was decided upon by the Suffrage Central Committee of Southern California at a meeting yesterday morning at the headquarters of the Votes for Women Club. The members agreed to begin the week on the same day that a similar campaign will begin in New York for the same purpose.

Women will deny themselves candy, soda water, matinees, vacations and all such. Men will be asked to cut their liquor bills in half, or to abstain from drinking at all. Both men and women are

Centauresses
DAZE CROWD.
THEY RIDE PONIES STRAIGHT INTO BREAKERS.

Invado Triton's Domain A Horseback Because They Can't Bear to Leave Their Pets—How It Feels to Be Carried Ashore When a Wave Lifts Your Charger.

In the gentle contest between the seashore cities as to which can boast the latest conceit in mid-summer sensations, Long Beach quietly walks upstage and tells the spotlight man to turn on the calcium. The new stunt for her exclusive patrons is to go bathing on horseback.

She backs it up by displaying two charming young ladies mounted on wiry ponies, who daily ride into the surf and enjoy their "swim."

The novelty was originated by Miss Elizabeth Robison, daughter of Mr. and Mrs. F. G. Robison of Peoria, Ill., who are guests at the Virginia, and Miss Emma Pettigrew, a Long Beach High School girl.

The girls have been inseparable friends for several years. Both are expert horsewomen. Recently they have been attracted by the bathing. They are expert swimmers, and then there a contest arose between the love they had for their horses and their fondness for the surf.

Day after day they rode up and down the beach watching the bathers. They longed to join them but could not get into the water. The girls were so much for the usually decorous folk who pass the summer months in Long Beach. They frankly started to follow.

At the beach, instead of leaving the ponies as the spectators expected, the girls rode into the ocean. A crowd of large dimensions had gathered, and men called out to the girls to come back and be careful.

Continued on Eighth Page.)

Girls That Go Swimming on Horseback.

a novelty in the bathing line that is proving something of a sensation at Long Beach. The girls are Miss Emma Pettigrew (left) and Miss Elizabeth Robison. The latter is the daughter of a wealthy resident of Peoria, while Miss Pettigrew is a senior in the Long Beach High School. Both are expert horsewomen and their performance in the surf while astride their mounts is in the nature of a revelation to the beach folk.

New Era.

WATER EXTENSIONS BY BONDS AND ASSESSMENTS.

New Policy Recommended by Public Service Commission to Meet Enlarged Obligations—Asks Council for Authority to Create Districts and Assess Them for Water-Main Laying—Departure from Fixed Custom.

THE fixed policy of a decade in the water department, by which water rates paid for extension of mains and betterments, is to be changed to one where such improvements will be paid for by bond issues or assessments laid on particular districts, if the recommendation of the Public Service Commission is adopted by the Council.

This recommendation is contained in the annual report sent to the Council yesterday, and approval of the change of policy is asked. It is urged because of the manifest injustice, in the judgment of the board, of asking the rate payers to bear the great cost that is to fall on the department, because of extraordinary preparations for the Owens River water.

The commission asserts that the fixed policy has been to meet all charges for extensions and betterments and increase of supply from the water income and that it would adhere to this policy if the obligations facing it were within reach of the annual surplus from rates. But they are unusually large, and the commission suggests that they must be provided for either by bond issues or by creating districts against which the cost of new extensions may be assessed. This is made possible by the new charter amendments, but only with the authorization of the Council.

The commission proposed that expenditures which affect the city at large should be borne by the public treasury; those that benefit particular districts should be assessed against the property, and those that affect the city and a particular district should bear division of the cost. The Council is asked to put the charter provision (subdivision 19, of section 2 of article 11) in force so that the commission will be empowered to create districts and assess them for water main extensions.

ESTABLISHED PRECEDENT. This proposes a departure from all precedent. When the city assumed control of the water plant it decided that the income from rates should bear cost of all extensions. Under this policy the plant has been magnificently served. Its bonded debt discharged, and its bonded debt about 50 per cent. paid.

John W. Powers, or James, as he now calls himself, greatly surprised Police Judge Williams and Deputy District Attorney Shannon yesterday by giving as his defense to a charge of bigamy that he had not married two women but three. Then he artfully related that the woman the police did not know of had secured a divorce from him and he had then married again. The last matrimonial venture thus called a third is known to the police as his second. It is the one on which the bigamy charge was based.

Despite his unique defense he was held to the Superior Court for trial and after the examination was transferred to the County Jail. As Powers intended to have his defense work out the charge against him would fall outside the jurisdiction of the California courts if not with pleasure upon the California courts and the one in Los Angeles. He said he married Grace Wake-

RECLUSE WITH MILLIONS DI

Former Steel Magnate a Victim of Odd Ways.

Led a Secluded Life in Angeles Hotel.

Wife Remained Prisoner of Strange Whims.

Maj. W. Arthur Phipps, a son of Henry Phipps, the Pittsburgh king, and many times a millionaire in Los Angeles, died yesterday. He had been regarded during his years residence at the Hotel Nuy, as one of the strangest most eccentric characters in the city. The life of a recluse, in luxurious apartments, Phipps had any really intimate friends he through the promotion enterprise which he was noted, brought contact with many persons.

Phipps left his apartments at the hotel perhaps less than a dozen times, and then only at moments, when assured by his valets and attendants that the coast was clear. His death reveals a singular life in his domestic life, which was to but a few. To satisfy his wife, Mrs. Emma Phipps, a prisoner with him, and was a life ever seen by any of the associates of her husband.

Phipps' apartments were his in the rooms at the hotel all his life was transacted. Identified Carnegie and other steel kings days when the trust was in vogue, Phipps, since coming to Angeles had increased his mill land and mining deals.

The death of Phipps was a heart disease, his life of enervation, and lack of exercise, being the end.

PREPARING FOR TRIP

He was just preparing to start on a long camping trip. Only a few days he had drawn up before the two splendid camp wagons, probably cost several thousand to equip and horse. He merely them from the window, passed judgment from that distant fourth floor, and taking the interior completeness of the room from friends.

He was rated at anywhere from \$50,000 to \$200,000. The he of this fortune was laid through land investments while in the Canadian army. He was a Toronto, of poor parentage, through his own ability became a millionaire.

Seeing wonderful business opportunities in the United States he came to Buffalo, and there became interested in steel.

His foresight brought him fortune, where he made numerous investments in land and did some. The Calumet mines of were promoted through him and several other properties were put on the market. Not all of them were successful.

INVESTS IN LANDS

Among the purchases of recent years was a ranch of 3000 acres near Glendora, which he called "Canabana," after the Gaelic word for flowers. This property was improved and contained among things a kennel of high-class dogs, a number of which died as pet major while he resided in it.

He also purchased an tract in Mexico, near San Blas of Tepic. This contained six square miles of fine agricultural land and some mining possibilities. He had no children and no heirs.

Mrs. Emma Phipps, the widow, sided with him for several years shortly after the marriage, with a decision to remain five years ago.

Dr. M. L. Moore was the physician in attendance most of the time. The condition of the sick man critical. Drs. Frick and White called in for consultation. The will be taken to Buffalo for burial.

TRI-STATE DATE

The Chamber of Commerce decided to suggest the 19th inst. day for the meeting of the convention from Arizona, New Mexico and California to the transcontinental highways. The Governor requested to appoint a delegate to the meeting which is to be this city.

Maybe He's a Triganist.

"NOT TWO WIVES, THREE SAYS ALLEGED BIGAMY"

JOHN W. POWERS, or James, as he now calls himself, greatly surprised Police Judge Williams and Deputy District Attorney Shannon yesterday by giving as his defense to a charge of bigamy that he had not married two women but three. Then he artfully related that the woman the police did not know of had secured a divorce from him and he had then married again. The last matrimonial venture thus called a third is known to the police as his second. It is the one on which the bigamy charge was based.

Despite his unique defense he was held to the Superior Court for trial and after the examination was transferred to the County Jail. As Powers intended to have his defense work out the charge against him would fall outside the jurisdiction of the California courts if not with pleasure upon the California courts and the one in Los Angeles. He said he married Grace Wake-

field in Boston in 1907. He lived there a time and then went to land where, in 1909, he married a Wallace.

In 1910 a divorce was granted Mrs. Grace Wakefield-Powers. In 1911 he married Pearl Sheeley.

As Powers would have it no legal wife because he already was one. If, however, that did not please the court then a divorce should be tried in the courts. If, however, the court satisfied with that explanation said in defense of his third wife that his first wife, Grace, was a divorcee from him and inasmuch as he was then free from his first wife he could then marry and marry Judge Williams. He was inclined to believe that the California courts might not with pleasure upon the California courts and the one in Los Angeles. Powers was held for trial.

The Public Service: City Hall and Courts

SUMMARY OF THE DAY.

City Engineer reports progress of city streets to form concrete with county good roads. Having the circumstances of death strange, an inquest company called a corpse, and now faces a brought by the dead man's wife.

Persons are suing a Washington concern for recovery of property for stock, alleging the man's death. A demonstration will be in court today.

EARL AND THE GRAND JURY.

To swear to a lie as a witness before a grand jury is a penal offense. To write a lie for publication in a newspaper is not an offense legally, unless somebody is libeled by it. Tobias Earl is aware of the distinction, for he is an adept in trifling with the truth. Therefore, having been subpoenaed before the grand jury to tell the truth, and knowing that publicity could not be given to his testimony there, he prints a double column editorial in his Express, in which he makes a muddled and contradictory statement of what he did and said before the Common Council in his efforts to procure a raise of rates in the charges of the Home Telephone Company, in which he holds stock. Before the grand jury Tobias will be subjected to a rigid examination, from which he cannot escape except by pleading that his answers will tend to incriminate him. Such a course would be morally equivalent to pleading guilty.

The circle of fire is closing around Tobias. He cannot escape except by the method adopted by the scorpions, which he resembles, of curling up and stinging himself to death.

Knock-Out Blow.

PROSECUTION WINS ROUND IN HALL OF RECORDS CASE.

THE PROSECUTION in the case of the Hall of Records, charged with having attempted to dynamite the Hall of Records, yesterday morning when Judge Willis denied the motion to quash the indictments against them. The trial of the accused was set for December 11.

When the court ruled against the motion, Maple, Connors and Bender each entered pleas of not guilty. It was the court's order that they be held in jail. In refusing to set aside or quash the indictment, Judge Willis recognized the contentions of the attorneys for the State, and blocked the attempt of the defense to have the case thrown out of court.

Judge Willis was at first disposed to set the trial for August 15, but the attorneys for the defense argued that it would be difficult for them to get the necessary evidence. The court then set the trial for December 11.

IN THE INFERIOR COURTS.

Retail Druggist Pays Heavy Fine for

Illegal Sale of Morphine to Slaves of

the Habit.

Frank Sloan, proprietor of a drug store at Ninth and Lawrence streets, was found guilty yesterday for the fourth time of having sold drugs to confirmed dope fiends. Police Judge Chesbro fined him a total of \$750 on two charges. He paid them and declared that in the future he will not violate the law.

One of the charges against Sloan was selling liquor in violation of the law and the other had to do with the illegal sale of morphine.

Fred C. Bolen, State Inspector, does not place much credence in Sloan's promises, for he declares that after each of the three preceding convictions, Sloan has declared it would be his last.

Underella Safe. E. Kelly was sent to jail for twenty days by Police Judge Frederickson yesterday, for begging. Though given an opportunity he did not offer to exonerate himself, and he was unable to furnish \$100 bail and was sent to jail pending the trial.

Another in Toils. Charged with having approached Mrs. E. J. Noyes, Frederickson yesterday, for begging. F. T. Jones was arrested as a vagrant and will be held in jail pending the trial.

Given More Time. A continuance was granted Mrs. Estelle Chandler yesterday by Judge Rose yesterday in connection with the case against her charging a not have hanged himself. Another unsolved crime will be pigeon-holed.

The body evidently had been hanging undisturbed for probably a month. The tree, around a limb of which a neck had been tied, is only about forty feet from the trail leading up the hill north of and about 600 feet from the Barlow Sanatorium. The only clew to the man's age was his hair, which was graying.

His pockets contained two small pieces of a cheap watch, key ring, two dimes, two five-cent pieces, and a memorandum book in which no entries had been made. The shoes had been newly bought, and the clothes appeared to be those of a workingman. He had on a blue shirt and a celluloid collar. The corner of a letter from home was found in his pocket.

The police records do not show any description of the dead man as having been reported missing.

Woman, Contradicts Story Told About Abuse at Husband's Hands. But He Is Held to Answer.

With an apparent change of heart, Jane Emery, colored, testified yesterday before Judge Frederickson that her husband had treated her well at all times, had made attempts to provide for her support, and had not found an affinity, which was a flat contradiction of her previous testimony.

For over an hour the attorneys representing the State and the defense, with Judge Frederickson acting as intermediary, wrangled concerning the disposition of the case. The defense attorneys pleaded, argued and threatened for delay. Ford was unmoved.

The defense attorneys then sought to get Ford to withdraw some of the questions, promising to return that they would have him answer the remainder, and call the matter closed.

viewed as a punishment for contempt a fine not to exceed \$500 or five days' imprisonment or both such fine and imprisonment as the court may deem proper.

The rule of the common law that such imprisonment is not a punishment but a means of enforcing obedience to the sentence of the law is quoted and adopted.

Justice Angellotti dissented on the ground that in his opinion the maximum jail sentence which could be imposed was five days. Justice Henshaw concurred with him.

In arguing this point the other justices declared that to hold such a view would be to make the law on contempt of little use.

The End. POLICE PUZZLE OVER MYSTERY. MAN FOUND HANGED MAY HAVE BEEN SLAIN.

Body Swings By Rope From Limb of Tree in Elysian Park Undisturbed for a Month. Although Near Trail Much Traveled—Contents of Pockets Intact.

What gives strength to the theory that the man whose decomposed body was found suspended yesterday from a tree in Elysian Park, could have been hanged himself, another unsolved crime will be pigeon-holed.

The body evidently had been hanging undisturbed for probably a month. The tree, around a limb of which a neck had been tied, is only about forty feet from the trail leading up the hill north of and about 600 feet from the Barlow Sanatorium. For over an hour the attorneys representing the State and the defense, with Judge Frederickson acting as intermediary, wrangled concerning the disposition of the case. The defense attorneys pleaded, argued and threatened for delay. Ford was unmoved.

The defense attorneys then sought to get Ford to withdraw some of the questions, promising to return that they would have him answer the remainder, and call the matter closed.

Doctor's Answer On Health and Beauty Question

BY DR. LEWIS BAKER

The questions answered below are general in nature and apply to many cases of similar nature. For a full and complete answer, write to Dr. Lewis Baker, 1000 Broadway, New York City.

Q. A. I.—I am a woman of 35 years of age, and I have been suffering from a chronic cough and asthma for several years. I have tried many remedies, but nothing has helped. Can you suggest any treatment?

A. I.—Write me more fully, and I will give you a free examination chart, and I will tell you what to do. I will also tell you what to eat and what to drink.

Q. B. I.—I am a man of 45 years of age, and I have been suffering from a chronic cough and asthma for several years. I have tried many remedies, but nothing has helped. Can you suggest any treatment?

A. B.—Write me more fully, and I will give you a free examination chart, and I will tell you what to do. I will also tell you what to eat and what to drink.

Q. C. I.—I am a woman of 25 years of age, and I have been suffering from a chronic cough and asthma for several years. I have tried many remedies, but nothing has helped. Can you suggest any treatment?

A. C.—Write me more fully, and I will give you a free examination chart, and I will tell you what to do. I will also tell you what to eat and what to drink.

Q. D. I.—I am a man of 35 years of age, and I have been suffering from a chronic cough and asthma for several years. I have tried many remedies, but nothing has helped. Can you suggest any treatment?

A. D.—Write me more fully, and I will give you a free examination chart, and I will tell you what to do. I will also tell you what to eat and what to drink.

Q. E. I.—I am a woman of 45 years of age, and I have been suffering from a chronic cough and asthma for several years. I have tried many remedies, but nothing has helped. Can you suggest any treatment?

A. E.—Write me more fully, and I will give you a free examination chart, and I will tell you what to do. I will also tell you what to eat and what to drink.

Q. F. I.—I am a man of 55 years of age, and I have been suffering from a chronic cough and asthma for several years. I have tried many remedies, but nothing has helped. Can you suggest any treatment?

A. F.—Write me more fully, and I will give you a free examination chart, and I will tell you what to do. I will also tell you what to eat and what to drink.

Q. G. I.—I am a woman of 65 years of age, and I have been suffering from a chronic cough and asthma for several years. I have tried many remedies, but nothing has helped. Can you suggest any treatment?

A. G.—Write me more fully, and I will give you a free examination chart, and I will tell you what to do. I will also tell you what to eat and what to drink.

Q. H. I.—I am a man of 75 years of age, and I have been suffering from a chronic cough and asthma for several years. I have tried many remedies, but nothing has helped. Can you suggest any treatment?

A. H.—Write me more fully, and I will give you a free examination chart, and I will tell you what to do. I will also tell you what to eat and what to drink.

Q. I. I.—I am a woman of 85 years of age, and I have been suffering from a chronic cough and asthma for several years. I have tried many remedies, but nothing has helped. Can you suggest any treatment?

A. I. I.—Write me more fully, and I will give you a free examination chart, and I will tell you what to do. I will also tell you what to eat and what to drink.

Q. J. I.—I am a man of 95 years of age, and I have been suffering from a chronic cough and asthma for several years. I have tried many remedies, but nothing has helped. Can you suggest any treatment?

A. J. I.—Write me more fully, and I will give you a free examination chart, and I will tell you what to do. I will also tell you what to eat and what to drink.

Q. K. I.—I am a woman of 105 years of age, and I have been suffering from a chronic cough and asthma for several years. I have tried many remedies, but nothing has helped. Can you suggest any treatment?

A. K. I.—Write me more fully, and I will give you a free examination chart, and I will tell you what to do. I will also tell you what to eat and what to drink.

Q. L. I.—I am a man of 115 years of age, and I have been suffering from a chronic cough and asthma for several years. I have tried many remedies, but nothing has helped. Can you suggest any treatment?

A. L. I.—Write me more fully, and I will give you a free examination chart, and I will tell you what to do. I will also tell you what to eat and what to drink.

Q. M. I.—I am a woman of 125 years of age, and I have been suffering from a chronic cough and asthma for several years. I have tried many remedies, but nothing has helped. Can you suggest any treatment?

A. M. I.—Write me more fully, and I will give you a free examination chart, and I will tell you what to do. I will also tell you what to eat and what to drink.

Q. N. I.—I am a man of 135 years of age, and I have been suffering from a chronic cough and asthma for several years. I have tried many remedies, but nothing has helped. Can you suggest any treatment?

A. N. I.—Write me more fully, and I will give you a free examination chart, and I will tell you what to do. I will also tell you what to eat and what to drink.

Q. O. I.—I am a woman of 145 years of age, and I have been suffering from a chronic cough and asthma for several years. I have tried many remedies, but nothing has helped. Can you suggest any treatment?

A. O. I.—Write me more fully, and I will give you a free examination chart, and I will tell you what to do. I will also tell you what to eat and what to drink.

STANDARD IS WILL IN LUCK.

Oil Gusher Adds to Buena Vista Production.

Standard Oil Co. Buena Vista Section Is Now Proved.

News of Interest from Oil Fields.

The largest oil well in the county fields is the gusher brought in on section 26 in the Buena Vista. The well came in at a pressure of 1000 pounds, and it could be seen plainly a three miles from the well. The first strike made in that vicinity of the Buena Vista.

The well is 2400 feet deep, and is a conservative estimate of oil a day. The oil is a gravity, and the original well was estimated at 1000 barrels a day. The Standard has more than six new wells to be drilled in its near-by properties.

The Standard is one of the most important of the Kern county fields. It is established the fact that in commercial quantities Buena Vista, and the Standard on section 26, is a large proven oil field.

The importance of the Standard on section 26 is estimated at this time, as going begging at low prices. The Standard is a well known oil field, and it is almost double what it was a year ago.

In Mesher of Law.

TELEGRAPH TAPPING FELONY, UNDER LAW OF THE STATE.

Under the law of California, a person who takes from a telegraph or telephone company a message of another, or MAKES USE OF THE SAME, is guilty of a felony and may be sent to the penitentiary for five years. The Times quotes the sections of the code relating to the offense:

Sec. 419. DISCLOSING CONTENTS OF TELEGRAPHIC OR TELEPHONIC MESSAGES. Every person who willfully discloses the contents of a telegraphic or telephonic message, or any part thereof, addressed to another person, without the permission of such person, unless directed so to do by the lawful order of a court, is punishable by imprisonment in the State prison not exceeding five years, or in the County Jail not exceeding one year, or by fine not exceeding five thousand dollars, or by both fine and imprisonment.

Sec. 420. GIBBERISHLY LEARNING CONTENTS OF TELEGRAPHIC OR TELEPHONIC MESSAGES. Every person who, by means of any machine, instrument or contrivance, or in any other manner, willfully and fraudulently reads, or attempts to read, any message, or to learn the contents thereof, while the same is being sent over any telegraph or telephone line, or willfully and fraudulently learns, or attempts to learn, the contents or meaning of any message, while the same is in any telegraph or telephone office, or is being received thereat or sent therefrom, or who uses or attempts to use, or communicate to others, any information so obtained, is punishable as provided in Section 419.

Sec. 421. EMPLOYEE USING INFORMATION CONTAINED IN TELEGRAPHIC OR TELEPHONIC MESSAGES. Every agent, operator, or employee of any telegraph or telephone office, who in any way uses or appropriates any information derived by him from any private message passing through his hands, and addressed to any other person, or in any other manner acquired by him by reason of his trust as such agent, operator, or employee, or trades or speculates upon any such information so obtained, or in any manner turns, or attempts to turn, the same to his own account, profit or advantage, is punishable by imprisonment in the State prison not exceeding five years, or by imprisonment in the County Jail not exceeding one year, or by fine not exceeding five thousand dollars, or by both such fine and imprisonment.

The offense of E. T. Earl, who violated the law by publishing in his newspaper messages stolen from the wireless telegraph, has been brought to the attention of the grand jury, and it is fair to assume that the grand jury will do its duty.

The Times cannot believe that the members of this jury are made of stuff that will recoil from indicting a lawbreaker because he is a millionaire and a politician. The same law that applies to poor thieves applies to "higher-ups." A millionaire monopolist, who makes use of stolen telegrams belonging to his business rivals, should receive no more consideration than a broken-down fellow who makes away with a bicycle or picks a pocket. We cannot have in this country one law for the rich and another law for the poor.

The Times has the utmost faith in the grand jury of this county, and it believes that neither pleadings, threats nor cajolery can avert the jurors from their duty or deter them from visiting upon a wealthy criminal the same justice it would mete out to a penniless offender.

able and raisin grapes are sent to the wineries and are the grapes of the association is to assess growers 5 cents a ton, crushers 10 cents a ton, and dealers in proportion to the business they do, to cover the expenses of the association.

The following individuals and firms allied themselves with the association, in and near this city: Italian Vineyard Company; Sierra Madre Vineyard Company; G. Domatela, G. Nebbia, West Glendale; Wine Company; San Gabriel Vineyard Company; all of Los Angeles; Erienne Brothers, Pasadena; John McClure, Burbank; Richard Krebs, Azusa; Mission Vineyard Company, Cucamonga, Secretary Still in a mission that involves the organization of all the growers and wineries south of the Tehachapi, and will make his next stop at Ventura.

GETTING BACK AT HIM. Doctor's Wife Entertains Hotel Guests With Effect of Earthquake on Husband. Will Make Home Here.

Guests gathered about an excited couple at the Alexandria last evening. The outside circle was composed of friends of Dr. and Mrs. Henry S. Downing, who have returned to Los Angeles.

Since the "hot" night in San Francisco, "Kidding" last Sunday, Dr. Downing's wife, Mrs. Henry S. Downing, has been making her home at the Alexandria last evening.

WOULD CREATE STORM DISTRICT

Mass-Meeting at Downey Adopts Resolutions Favoring Drainage System Extending to Sea.

Resolutions were adopted favoring the creation of a storm drainage district from San Gabriel Canyon to the sea, at a largely attended meeting in the Auditorium, Downey, last evening.

Ranchers were present from El Monte, Artesia, Rivera, Long Beach and Clearwater, and they were enthusiastically in favor of such district.

J. H. Strine was made chairman of the meeting and E. Parsons secretary. A committee was appointed to arrange a meeting for the entire district, at the call of the chairman.

Sentiment is strong in favor of a concerted movement to protect the land owners of Southern California against the freshets which devastate so much territory each spring.

TOPHAM FOR COUNCILMAN. Police Commissioner Who Figures in Grand Jury Investigation Has Petition Out—Many Others, Too.

Petitioners with petitions petitioning every legal voter, signed abroad, and according to the growing list of candidates in the City Clerk's office, will increase. These are the harbingers of the coming city campaign which, it is fervently hoped, will not begin until some time in September.

Yesterday it was learned that John Topham, police commissioner and generally in evidence because of the grand jury investigation of City Hall affairs, has had a petition for the nomination for Councilman out for a week, and has over 500 signatures. When the petition was issued the City Clerk forgot to list Topham's name.

Another new candidate is William E. McKee, who was one of the eighteen nominees more than 15,000 votes at the election. He is a Native Son and a life-long resident of Los Angeles.

Other new candidates are Ormond T. Helping, a traffic expert, R. M. McKee, proprietor of a market at No. 2805 San Pedro street and Grove E. Walter, whose petitions were issued yesterday.

All of the Council's Solid Six have taken out petitions, except Councilman Topham, and he is expected to call this week.

THE CHAMBER OF COMMERCE yesterday passed resolutions urging Senator Topham and Congressman Stephens to do everything possible toward the passage of the bill now before the House for the establishment and maintenance of sign boards locating springs, streams and water holes on the desert. All civic organizations will also be asked to urge the passage of this bill.

BUSINESS AT HOME. One of the teller's windows at the All Night and Day Bank was closed yesterday because of the absence of Edward H. Hill. He was at his Los Angeles home in Alhambra, very much interested in a baby daughter, who arrived early in the morning.

MILITARY GUEST. Chief E. L. Anderson, U.S.A., of the Presidio of Monterey, with his wife arrived at the Alexandria yesterday evening. He is here to visit friends while on his annual furlough.

UNDELIVERED TELEGRAMS. Telegrams are at the office of the Postal Telegraph Cable Company for Austin C. Whidden, Kellogg, Van Winkle, Mrs. Wm. F. Standke, John Eler, Clute Hill, Chas. Menzies, Mrs. Glenn Martin, and Miss Iva E. Gittings.

MONEY CAN BE MADE by taking advantage of the opportunity to exploit from day to day in the "Business Chances" columns of The Times "Liner" section.

Non-Generous Passes Away While Visiting His Daughter in This City. Crossed Plains in Ox Team.

The long roll was sounded for another of the few remaining "dies" last evening when M. E. Bryant passed away at the home of his daughter, Mrs. J. W. Henderson, No. 699 Ardmore avenue. Bryant was 91 years old and a retired farmer.

When the discovery of gold at Juliet's Hill in 1849 started the wonderful rush to California, Bryant, unmarried and eager for fortune and adventure, with the warm blood of Kentucky coursing through his veins, came West in an ox team with a party of prospectors. He went first to Mokelumne Hill, in the northern part of the State and was for a time successful in his quest for gold. When the gold fever began to subside and the panning were not very tempting, he turned to farming.

Two months ago Bryant came to this city from his farm near Stockton to visit his daughter. His death last evening is attributed to old age. The funeral services will be held at 10 o'clock tomorrow morning.

Why The HomePhone?

Give any one of your clerks something to do, let him give it to a second, and he to a third, and the chances of making mistakes are just four to one what they might have been had you done the work yourself.

That applies to telephoning. A far distant number in the manual system requires from one to three or four repetitions by one "Central" to another. The HOMEPHONE way is the direct way. You call your own number without relays.

VILLE DE PARIS

317-325 312-322 SQ. BROADWAY SQ. HILL STREET A. FUSENOT CO.

SPECIAL NOTICE TO VISITORS

REALIZING that many visitors will be in the city during the month of August, and wishing to afford our out-of-town patrons the pleasure of an early selection of new fall dress goods, we have already placed on sale our early arrivals in

SMART TAILOR SUITINGS AND NEW CREAM WOOLENS.

Although it is quite early you can select the material for your new fall suit NOW and rest assured that it is absolutely correct—for "Ville" fabrics are the authentic styles for the coming season. We invite you to inspect the following:

Tailor Suitings

Imported and domestic makes. Priced from \$1.50 to \$4.50 yard.

These fabrics are unusually mannish in effect, a feature much appreciated by smart dressers.

Cream Woolens

Completeness is the word that best describes our stock of cream woolens. From among the many fashionable fabrics shown we wish to especially emphasize our line of the coarse, and heavy weaves so popular now, such as

NATTE, BASKET WEAVE AND ZAZA FROM \$2.50 TO \$8.00 YARD.

In our Art Needlework Department we will offer today for a quick clean-up:

Regular 65c Scarfs & Squares 50c at each

Regular 50c art denim Scarfs 35c at each

In Swiss applique, braided or open work designs; also barred muslin scarfs or squares, finished with ruffle of embroidery.

These scarfs have borders of bright flowered cretonne and are finished on the edge with lace.

ROBBERIES INCURRED.

Herodotus, Caesar and Plato were accused of having been beer drinkers by a tress before a Federal board at Washington. We had always believed that gentlemen of their rank and look nothing stronger than a little hemlock.

THE AVALON FIGHT.

Most persons who visit Catalina will sympathize with the fight being made by a president of the Freeholders' Association there against soliciting trade close to wharf. The annoyance of the trade sailor is something belonging to bygone days.

PORTUNITY.

Better than the genius of artist, orator poet; better than the learning of the books or inherited wealth is the ability to recognize an opportunity and to seize it. For by her skirts before she can flit by opportunity is a whimsical and fitting jade. She hides in trifles. She presents herself in chance acquaintance, in a passing remark, in a newspaper advertisement. She is on a storm. She is upheaved by an earthquake. She is hidden in the properties of a plant. "She rules over the kingdom of things."

UNFAIR DISCRIMINATION.

The constantly recurring attempts to jump or shoot up millions are hardly fair. A fair deal to the deserving poor. A favored few have a thousand ways of getting into the limelight which are denied the unfavored many. A chorus girl should be a millionaire or a brigand holds him for ransom, when he can profit nothing by the reticence, since the ordinary millionaire has no hankering to appear in vaudeville. But the rich man's misfortune might be the poor man's opportunity.

FREE IMPORTS.

Free-duty imports in the fiscal year closed were larger in value than in any other year of American commerce. Here the Bureau of Statistics record:

	Free of duty imports.
1909	\$778,000,000
1910	755,000,000
1911	817,000,000

TRYING TO HIDE BEHIND BOYS.

Some years ago a Wall Street capitalist saved himself from injury from a bomb explosion by selling a clerk and using him as a shield. Then he refused to pay the physician who attended the young man. The father of the boy sued the old fellow and recovered heavy damages.

Tobias Earl is trying to edge away from the penitentiary doors by charging the telegraph line tapping crime upon the boys and declaring that the pending prosecution of him by the District Attorney's office is caused by the newly-discovered hatred of Gen. Otis for all male persons under the age of 21 years.

It is the wireless telegraph company and the District Attorney in pursuit of his duty who are after the journalistic telegraph tappers. The Times has nothing to do with the prosecution of Tobias for violating Section 640 of the Penal Code, except to hope that justice will be done and the law enforced. Beyond this it is a matter of indifference to the Times whether Tobias shall or shall not for a few years be remitted to the conclusion that San Quentin grants.

TRIALS OF A PHARMACOLOGIST.

Dr. Wiley, the food expert, is not to be dismissed, but to escape with a reprieve, because of his long and distinguished services as a government chemist and an enemy of adulterated and unwholesome food and drugs.

The people will be glad of the clemency extended to him. His offense was technical and did not involve corruption or moral turpitude and for his success in procuring the expulsion of formaldehyde from canned goods the country owes him a debt of gratitude.

Dr. Wiley agreed to put Dr. Rusby on the pay roll as a pharmacologist and expert witness in drug trials at \$1500 per annum. Dr. Rusby was to work 100 days as a pharmacologist at \$9 per day and earn the remaining \$700 by appearing as an expert witness if and whenever his services as such were required. Previous to this time Dr. Rusby had been receiving \$50 a day as a witness and \$20 a day when employed in laboratory service.

Authority to employ Dr. Rusby occasionally was vested in Dr. Wiley; but he had no power to place him on an annual pay roll and his doing so was made the occasion and the opportunity for his enemies and rivals to demand his dismissal—a demand to which President Taft, in his wisdom and kindness, refused to listen.

Many intelligent people are not clear as to what a pharmacologist is. The word cannot be found in Webster's Unabridged Dictionary. The Standard somewhat vaguely defines it as "a branch of pharmacology that treats of unprepared medicines." A dose of castor oil, for instance, would rank as an unprepared medicine, while a delicious draught of Epsom salts would be "prepared."

From the construction of the word and an analysis of its syllables, a pharmacologist would seem to be an apothecary who takes cognizance of things with his nose. If this is the meaning of the word we are all pharmacologists at times. As, for instance, when we visit a fertilizer factory or are compelled to walk past the buildings where the Distress and the Wall are incubated. One would scarcely like to be under contract to do this for a pittance of \$9 a day and be compelled to undergo the torture for 100 days in the year. Let Dr. Rusby keep his job.

AN INCITER OF CRIME.

In despite of denunciations, and motions, and procrastinating pleas interposed by the attorneys of the McNamara, the day of their trial approaches slowly but surely. Whatever may be the unexpressed opinions of the officials, whose duty it is to prosecute the accused, as to their guilt, it is evident that those who are defending them do not believe in their innocence and do not want a fair trial or any kind of trial for them.

This is evidenced by resolutions of labor unions, by editorials in newspaper organs of assassination and by the anarchistic mouthings of labor leaders. The harm of such publications is that they advocate riot, fraud and bloodshed as a remedy for the fancied wrongs which they falsely assert that capital has inflicted upon labor. They miseducate the youth and they inflame the passions of the ignorant and vicious.

A specimen of this kind of literature may be found in a pamphlet published by Frank E. Wolfe of Colgrove and now being extensively circulated under union-label auspices. The title of this effusion is "Capitalism's Conspiracy in California." The writer, under the heading of "Los Angeles the Storm Center," begins with the following: "Foreword. Workingmen who dare to raise their voices against the master class today stand in the shadow of the gallows. Capitalism clamors for their blood. The old days of terrorism are revived. Imprisonment and death await leaders of the working class who have the temerity to protest aloud against oppression."

The writer continues as follows: "Capitalism's conspiracy in California has centered in Los Angeles and taken on well-defined form. Southern California has been chosen for the first battleground in the titanic struggle. The war of the classes begins in deadly earnest here, the plans are well perfected and the forces are being marshaled for action. . . . Capitalism looks for uprisings and riots. It is prepared for bloodshed. Streets of cities, it anticipates, will run red with the blood of the working class. Capitalism will strike fearlessly and recklessly through its hired and trained murderers. Criminals in the guise of detectives will be hired to commit dynamite outrages to turn the people against organized labor. Innocent men will be thrown into prison, and, if need be, will be sent to the gallows on perjured testimony."

The pamphlet, which contains thirty pages of what an Englishman would call "heavily set," ends with a characterization of the prosecution of the McNamaras as a part of "Capitalism's conspiracy in California along the lines of well-defined plans to crush labor."

No person of ordinary intelligence believes that the District Attorney of Los Angeles and his deputies, or the members of the City Council who voted a reward for the arrest of the dynamiters, or the members of the Merchants' and Manufacturers' Association prosecute lawbreakers, or non-union workers, or any citizens of Los Angeles of whatever vocation or class, have been or are engaged in any kind of a conspiracy or coalition to murder, or imprison, or injure any human being.

The "wrong to labor" which, in the opinion of the labor leaders, justifies picketing, boycotting, assaulting, beating and murdering non-union laborers and defacing their corpses and dynamiting the property of their employers has been the exercise of non-union workmen of their right to earn bread for their families without joining a union and surrendering a share of their wages and all of their independence to such walking delegates and labor leaders as have driven industry from the workshops and factories of San Francisco.

Easier Said Than Done.

with ten an almost negligible quantity, the beer rate keeps steadily increasing. As long as so great a number of our citizens have such a preference for the amber liquid in the long glass, we might as well face the fact squarely and see at least that the beverage supplied them as beer shall be as harmless as possible.

Dr. Harvey W. Wiley will add considerably to his laurels if he can institute a reform forcing the brewers to label their products with the name and quantity of every ingredient that enters into their composition. Such a step may open the eyes of the public to the necessity of temperance far more surely than the summary laws of prohibition. In the past beer has been adulterated with vitriol, poppy-heads, tartar, linseed, licorice, alum, wild cherries, pine sprouts, camomile, allylic acid, picric acid, aloes and other less important ingredients. Some of these are far more harmful to the human system than the small amount of alcohol caused by the fermentation of malt and hops.

In Germany, where the Chevalier barley is used exclusively in breweries, beer is consumed in far greater quantities than in our own country. Yet, because the brew is pure, no such harmful effects from beer drinking are noticed among the Teutons as are observed in the United States from the lesser consumption of the adulterated article. Barley is a food staple, and hops are excellent for the blood and the nerves, yet beer weakens instead of strengthening the constitution of the average man. One brewery advertisement: "If you only knew what we know about beer, you would drink no other than our beer." To which Dr. Wiley sagaciously adds: "Maybe if we knew what they know about beer, we would drink no beer at all."

Barley can be put to many excellent uses. The steel roller converts the grain into excellent food for man and beast; the fermenting vat makes it into an attractive liquor for man only. We say a drunken man "makes a beast of himself," but the beast knows better. However, because men will continue to drink beer, it is not necessary to poison them by allowing a liquor containing poison, picric acid and bitter aloes to masquerade in the more innocent guise of barley and hops.

UNCLE WALT.

The Poet Philosopher.
How thankful we should be, my friends, that weather so warm! No frosty sky above us binds, we fear no Arctic storm! Sweet summer lingers with us yet, the good old-fashioned sort; and down my face refreshing sweat is rolling by the quart. The sun is blazing through the skies, and paints its pathway red; the dear, delightful, sportive flies are dancing on my head. And as I contemplate the boons that cluster over me, I eat another dish of prunes and shed some tears of grief. Now while we loiter in comfort here, let's think of others' woes! The Eskimo who drives his deer among the drifted snows—what would he give to sit with us, the mercury beside, and fan himself, and cuss, and cuss, while being slowly fried? What would the man of Lapland give to quit his native soil, in this, our sunny land, to live, and watch his whiskers grow? I do not have to shovel snow, and that is surely nice; and never am I asked to throw coal sashes on the ice; you do not see me on the fire big chunks of cordwood slam. What more could any man desire? I'm happy as a clam.

TOO MUCH INTOLERANCE.

BY MISS SYDNEY FORD.

"No, I shall not vote for suffrage in October," said a prominent man. "At one time, I confess, I favored it, but my observation of the methods pursued by the suffragists has altered my opinion. Their attitude of intolerance toward every woman who happens to differ from them in suffrage sentiment, proves beyond a doubt to my mind that they are utterly unfit to vote. In the course of succeeding generations women may reach a state where they are sufficiently broad-minded to vote—but not now, not now."

"Do you know," he went on, "that these women—many of them—have simply lost their common sense, in respect to this suffrage business. They regard it as a personal affront if every woman does not agree with them. They simply cannot seem to realize that there are other women just as bright and clever as themselves who think—and think the other way. I have heard of instances of suffragists so small-minded that they have actually refused to speak to former friends who differ with them in their political views. They seem to think they have a patent right on public opinion and can be as insulting as they please toward other women who don't happen to think as they do. This is contrary to the American idea of liberty, and smacks of intolerance and persecution. No, I like to see fair play and I reason this way. If, in the effort to obtain the ballot, women will descend to this, what will they do when they actually get into the field of politics? Not until they show a better and broader platform than this will I indorse their entrance into the field of politics," and he shook his head decidedly.

Rather severe, but I'm not disputing it. As a matter of fact, I myself have had a similar experience. A strenuous suffragist informed me the other day that I was "weak-minded."

Well, perhaps I am, but I think the lunacy commission ought not, in common justice, to commit me to the asylum for the feeble-minded until I give some other token of sanity than that of declaring myself against suffrage.

Speaking of intolerance, I am reminded of a conversation I had several weeks ago with a bright, clever woman from Berkeley who was visiting a friend here. The subject of suffrage came up—as it's pretty sure to at any function where women assemble these days—and I remarked, knowing that the friend she was visiting was one of the suffrage leaders, "Of course, you believe in suffrage."

She hesitated, looked in the direction in which her friend had gone to speak to some one, waited till she was at a safe distance and then confided to me in low tones: "Yes, I have been—but I don't know exactly where I am now. I must confess to you that I was so disgusted with the intolerance shown by our Berkeley suffragists at a recent meeting that I gave my suffrage principles a violent shock. Miss Bronson of New York—I believe she spoke here also—came to Berkeley and gave an address on anti-suffrage. She is a fine speaker; her points are well taken, and her arguments are clear and logical—although, being a suffragist myself, I did not agree with her. At the conclusion of her speech I commented to my friends on her eloquence and excellent address, and, if you'll believe me, not a word of her speech would admit that Miss Bronson was any sort of a speaker, had any kind of magnetism or, in fact, any reason for appearing on the platform at all. It was too much for me—such blind intolerance that would not admit a fact that was clearly in evidence. And so now I hardly know where I am—on the fence, I guess," and she laughed uncertainly.

The Retort Courteous?

The gentle tactics of a certain prominent woman suffragist as told by a teacher in the Los Angeles public schools is illustrated by the following incident. The teacher was talking about some delay there had been in drawing her salary. The suffragist asked abruptly:

"Are you a suffragist?" and when the teacher replied that she was not, the woman who was battling for the ballot remarked fiercely:

INFORMATION

Los Angeles Times. FEATURES. REGULARLY more pages of and other reading matter and a volume of advertising than any other paper. AND AT THE. Independent, unconnected, unconnected, unconnected. THE LOS AN- TIMES is devoted to the great of Liberty under Law, equal to all, and the great, the great of Los Angeles, the state of and the great Southwest. LABOR: The Times champions the of "equality of opportunity" and the average good citizen. It is the policy of all honest, all unshackled law-abiding work- men and while never leaving out of workers to organize law- ful, legitimate and exclusive organizations of their own class and the industrial work. Our position is that it is wrong to maintain the record of The Times as a just, reliable, impartial and unshackled period between August 4, 1909, and 1910, there was paid to all well-qualified non-union men in labor and wages, the total- ized cash sum of \$1,025,125.66- the settled labor. THE Times stands for the conservation of human life and char- acter, for the conservation of homes and of the past and the future, for the advancement and enlightenment of the people, for the conservation of a just, patriotic citizenship, with- out which no nation can be great and the settled labor. CIRCULATION: Daily net average, 1909-1910, 1910-1911, 1911-1912, 1912-1913, 1913-1914, 1914-1915, 1915-1916, 1916-1917, 1917-1918, 1918-1919, 1919-1920, 1920-1921, 1921-1922, 1922-1923, 1923-1924, To Tiger Luck.

DELHI SHOWS CLASS AGAIN.

Defeats Vernon Handily in Ten-Inning Game.

Errors Give Angels First Run in Third Inning.

Kane's Tumbling Catch Is Real Fielding Feature.

BY GREY OLIVER.

Los Angeles, 2; Vernon, 2. Ten innings.

Backed up by practically perfect support Delhi went to the Tigers yesterday and their collective aching upon the wall. They had him guessing several times, but as the Angels hammered both Carson and Hitt freely, they won after struggling along for ten innings. It was an exciting game from beginning to end for the score was tied twice and it only ended the right way for the Angels when Delmas won in the tenth by knocking the ball as far as it could be sent into the right-field corner of the fence.

It was a pitcher's battle for both teams and for this reason was inclined to drag on the bottom, for few of the men could hit the ball out of the infield or rather get it safe. But two swats were made off Delhi in seven innings and these came in the first and second innings. Only six of the Tigers got to first base in these seven rounds and the run that the Tigers finally made in the eighth was due to two scratch hits. The chances are that the Angels would have been beaten again. Abbott hit a grounder to Hoop who got a bad throw from Carson, who was at first base, Abbott going to second on the error. A moment later Carson tried to catch him off the bat and made a wild heave of the ball and Abbott ran to third and had no doubt of his safety. He knocked the center fence down with a single.

Vernon tied the score in the eighth when it started its first run with Brown's Texas leaguer to left, Hitt, batting for Carson, who was at first base, but put Brown on second and he scored on Carlisle's infield single.

The Angels were back in their half of the eighth with a run that began when Moore singled to right field. He was forced at second by Metzger. Metzger got to second when Delmas hit to center and easily scored when Smith, batting for Dillon, doubled to left.

This run looked like enough, but Vernon tied it in the ninth. Hitt's double to left and Patterson's single to right. As the Angels could do nothing in their half of the ninth, an extra round was necessary.

Delhi sewed up the Tigers in their half of the tenth. Hitt's double to left and Patterson's single to right. As the Angels could do nothing in their half of the ninth, an extra round was necessary.

Delhi sewed up the Tigers in their half of the tenth. Hitt's double to left and Patterson's single to right. As the Angels could do nothing in their half of the ninth, an extra round was necessary.

ANGELS LOSE PITCHER CHECK.

[BY DIRECT WIRE TO THE TIMES.]

ST. PAUL, Aug. 2.—[Exclusive Dispatch.] Charlie Check, who was disposed of to Los Angeles of the Pacific Coast League, a few weeks ago, will not be permitted to go West because the local club needs his services as the American Association race is too close to permit of taking chances.

It Stands.

MAGEE DECISION IS AFFIRMED.

NATIONAL LEAGUE DIRECTORS SUPPORT LYNCH.

Murphy of Chicago Files Minority Report Which Does Not Concur With the Suspension Sentence—Officials Give Reasons for Their Formal Action.

[BY A. P. NIGHT WIRE TO THE TIMES.]

CHICAGO, Aug. 2.—By a vote of 3 to 1 the board of directors of the National Baseball League today upheld President Lynch in his action suspending Sherwood Magee, outfielder of the Philadelphia club for assaulting Umpire Pinner during a recent game with the St. Louis team in Philadelphia. President Lynch fined Magee \$200 and suspended him for the remainder of the season.

The directors, in a lengthy opinion in which the constitution of the league on the power of the president to enforce discipline by imposing fines and suspending players is quoted, sustain President Lynch.

Later, President Murphy of the Chicago club filed a dissenting opinion. In their decision the directors said: "In the hearing of this case no testimony was offered by the player that would warrant the board in either rejecting or modifying the fine inflicted against him, and his request to do so is denied."

"The president of the league acted clearly within his authority under the provisions of the constitution of the National League, and it should serve as a warning to all players who are charged with offenses against them under the provisions of the constitution, and the suspension by the president for a definite period follows after a proper hearing of the charges that no appeal can be taken and the suspension will be enforced."

When Here With the Giants He Bought Some Property and, on His Retirement, Intends Making His Home Here—Effectiveness as a Pitcher Is Slumping Rapidly.

BY LOU GUERNSEY.

When the great Christy Mathewson retires from professional baseball he intends coming to Los Angeles to live. Mathewson's property in Los Angeles, which he purchased several years ago when the Giants trained here.

The "Big Train" has invested considerable of his money in real estate and it has increased wonderfully in value. When he retires his bank account will top the \$75,000 mark. He has made more money playing baseball than any other player in the history of the game and he has tucked most of it away.

Mathewson may not be on the down-grade, but there is no doubt that for some reason his wonderful effectiveness has been seriously impaired. The slump of the greatest pitcher in baseball is the talk of fans the country over. I saw the "Big Six" heavier pitch three games in the East recently and he had absolutely "nothing."

Matty's most puzzling ball has always been called the "fadeaway." It is an outdrop delivered high and straight at the batsman's head, the ball breaking quickly down over the center on the outside corner of the plate. With this delivery he has baffled the sluggers in the National League for several years.

In the three games I saw Mathewson twirl he found it impossible to get the ball of the great drop curve. He tried again and again against the Phillies and Cardinals to put the result was the same, a straight ball that was hit hard. In fact Matty and his curve delivery is a piping hot ball, and realizing that he was lacking in black art he voluntarily gave up the task.

The great Mathewson is no longer a popular idol in Gotham. The Phillies were playing in New York and Matty and "Rube" Marquard were warming up for the game. McGraw had decided to pitch Matty but the fans and bleachers yelled so vociferously for "Marquard" that the little corporal switched his mind and sent the big side wheeler to the wire and he won a splendid game, holding the Doolin men to five hits and whiffing seven.

I asked Matty what the trouble was on his way to the clubhouse after receiving his bumps and he replied mournfully: "I can't get my curve working right, that's about all. I will fool 'em all before the season's over. They can't expect a man to win all his games. The heat affected me to some extent but I'll get the old horseback acting right before long. I'm good for several years yet and don't forget it."

I knew Matty very well during my college days and pitched against him on two occasions and I, while I realize that he hasn't quite the "stuff" he had in his sleeve six or seven years ago, he is not a candidate for the D and O Club by a long shot. If he gets his "fadeaway" performing well he'll win 80 per cent. of his games from now until they haul down the American flag. He has taken excellent care of himself since his entrance into professional baseball and physically he is in tip-top shape.

I firmly believe that Alexander the great of the Philadelphia team is to be Matty's successor as the premier moulder in the National League. Alexander is a wonderful pitcher and has everything and then some. Shoots the ball up so fast that it looks like a pea when it darts across the plate and his curve delivery is a piping hot ball, and realizing that he was lacking in black art he voluntarily gave up the task.

Results of Yesterday's Major League Games in the East.

MIGHTY COBB STRIKES OUT WITH BASES FULL.

Crawford Follows by Fanning and Pitcher Charley Hall Wins Eternal Fame at Boston by Disposing of American League's Most Famous Bateman Without Warming Up—Philadelphia Close to Detroit.

[BY DIRECT WIRE TO THE TIMES.]
CHICAGO, Aug. 2.—(Exclusive Dispatch.) The once mighty Casey who became infamous when he stepped out with the eyes of the world on him was a hero today as he struck out the great Ty Cobb when he came to bat in the ninth inning of the second game with the Red Sox.

He could not have won the game if he had hit a home run, but his weakness was a home run, he was fanned by Charley Hall, a pitcher who was washed into the game without warming up after Papa had filled the bases. All added to his fame as a pitcher by immediately there fanning the slugger Crawford. He was the principal feature of a double header with the exception of the fact that the Red Sox beat Detroit twice.

While this was going on Philadelphia was trimming St. Louis and taking up within eight points of the leaders. Washington and Chicago were even in two games. Chicago losing the second game after it had won the first by a heavy margin. The Naps and New York played a fierce game of slugging and errors, Cleveland winning after making a few hits and errors.

RECORD IN RECORD.
NEW YORK, Aug. 2.—In a game marked by poor pitching and poorer hitting, Cleveland won from New York in the first game of the series today. The victors won in the ninth when they got five hits and four runs. Quinn. Score: Cleveland, 5; New York, 0.

SUMMARY.
Two-base hits—Kapp, Birmingham. Three-base hits—Chase, Gardner. Double plays—Kapp, Gardner. Batteries—Kapp, Gardner and G. Fisher; Kapp, Gardner and G. Fisher.

TIGERS LOSE TWO.
DETROIT, Aug. 2.—Boston defeated Detroit in two games. Three men

ARCHER'S HOME RUN HIT WINS FOR CHANCE'S CUBS.

One to Nothing Victory Puts Chicago Farther in the Lead of National Race—Pirates Lose First Game in Last Fourteen Played—Boston Hammers Steele of St. Louis and Puts Cards Farther Down.

[BY DIRECT WIRE TO THE TIMES.]
CHICAGO, Aug. 2.—(Exclusive Dispatch.) Cole gave a grand exhibition of pitching today when he held the erratic Brooklyn to one hit and finally beat them 1 to 0 in a fierce ten-inning game. Victory only came to the champions when Archer ended the game with a home run, which made a spectacular finish to a great game of real baseball. Rucker was hit for only four runs and these were scattered. Brooklyn played errorless ball while the Cubs had but one error.

After breaking the world's hoodoo record by winning thirteen straight games, the Pirates lost the fourth today to the Cubs. It was a hard batting game with the Pirates leading and they might have had an equal chance but Mathewson was given his support at all times.

Boston came to life finally and hammered Steele hard and often and particularly in the second, when three runs were made. Boston's victory was bought from the Giants yesterday, did not show up. Neither team made an error.

PITTSBURGH, Aug. 2.—After winning thirteen straight games, the Pirates lost the fourth today to the Cubs. It was a hard batting game with the Pirates leading and they might have had an equal chance but Mathewson was given his support at all times.

After breaking the world's hoodoo record by winning thirteen straight games, the Pirates lost the fourth today to the Cubs. It was a hard batting game with the Pirates leading and they might have had an equal chance but Mathewson was given his support at all times.

Boston came to life finally and hammered Steele hard and often and particularly in the second, when three runs were made. Boston's victory was bought from the Giants yesterday, did not show up. Neither team made an error.

PITTSBURGH, Aug. 2.—After winning thirteen straight games, the Pirates lost the fourth today to the Cubs. It was a hard batting game with the Pirates leading and they might have had an equal chance but Mathewson was given his support at all times.

The Bootery HONOR YACHTING QUEEN.

Mrs. Harry Meilen is Guest of Honor at Unique Dinner Given by Dr. and Mrs. Albert Soland.

Dr. and Mrs. Albert Soland were the hosts at a Norwegian dinner given in honor of Mrs. Harry Meilen. Tuesday night at the Soland residence at Hollywood. The dinner was decorated in yellow and green and on the place cards were photographs of the yacht Portola, owned by the Meltons, with Mrs. Meilen engaged in handling the rigging.

At the dinner were Dr. and Mrs. Markoff, Mr. and Mrs. Harry Meilen, Volney Howard, Miss Grace Perkins, Miss Benson and Warren Wood.

Mrs. Meilen and Mrs. Markoff are to leave for the East today. Mrs. Meilen is to visit at Williamsstown, Mass., and Mrs. Markoff will go to Stonington, Conn.

JEFFRIES OFF YESTERDAY. Jim and Brother John to Start This Morning for Three Month Hunt in Alaska.

Jim Jeffries and his brother John left yesterday morning on the long-contemplated hunting trip to Alaska and, according to what Jim thinks,

there will be few more of the kind after he starts home. The party boarded the boat yesterday morning. From that city they will sail to the coast and there will be a stop at Seattle and then the journey will be on to the Yukon.

The party is expected to be in the Yukon for a long time. The party is expected to be in the Yukon for a long time. The party is expected to be in the Yukon for a long time.

AND MEN
OLIVE GRAY**

BEAUTY HINT: Hollows of the neck may be filled out by
massage and drinking milk. A glass of warm milk taken on going
to the best flesh builders. Instead of using a cream for
the face, take the best quality of olive oil. Moisture the skin over the
and massage gently with the finger tips, using a circular mo
this every night and every morning, rubbing for 10 minutes.
It will swing Indian clubs for five minutes in the morning, too, you
the exercise excellent to develop the neck. The clubs should
be more than two pounds.

—said a perspiring man
on Broadway the other
day who would advocate in
the discarding of the
on these hot days? And
after I met a man who
the matter into his own
words from his ad
said that he had been ad
time during that warm
and I am certain that
had been greeted with
invidious remarks, all o
was a waste of time.
I cannot see why men
wear short-sleeved shirts
in warm weather? I have
seen men dressed too warm
and I am certain that
they are not the ladies who
are so fastidious. Talk
of slaves to fashion! Men
do to fashion more abso
lutely than women. They
allow to follow the extreme
fashion, or seems some
and from us.

For Less Than Price of One
I saw in the high-class
a change of firm has
out a great sale of men's
clothes for half the
than half the usual price
of goods, the latest of cut
and the best of make—
not furnish an opportu
to obtain bargains. I wonder
if you are tempted?

Are there things if they
are worth while? They will
into fashion and into use.
demonstrated recently when
style came out in a very
dress of natural linen, with
ending kimono yoke in cro
colored done in very fine thread,
and was so strikingly pretty
her admiring friends made
comment. She laughed and
then I saw that old tidy
dily separated the wheels. I
saw it. I might come
it has? Then she ex
tended the beautiful yoke was
from the wheels of an
drummed long ago, but
she had the habit of
everything which seemed
throw away.

When the new cannon
is opened, it is said to re
fect good until used. This
point in favor over the con
sider that will remain good
port time after the can is
for small families who use
it is worth while. Milk
keep and which is always
easy to use, is an inestimable
asset.

Jeans are in the market
as ripe as the apples they
are for a good plan to
for mums, cooking them
ment snow-to-sweater. Even
in this manner, and the p
in, in add to the flavor. The
of, of course, be peeled be

Gown.
Gown, yesterday, which con
fines of the newest styles
and blue are the favorite
tending from brass to lace
of heavy fillet, almost like
the waist of corset-piece dresses
and well with the
the material which formed
the skirt was a novel shape,
to fall according to its own
that the ends were caught
at the waist with the same
fillet which edged the front

Jeans.
The oldest and most suit
able jeans seen this season com
bined an effect as to shoul
der and sleeve and the hood of
the evening gown which made it
electrically still more striking. The waist
fell well away from the neck, and
the large tassel which adorned the
pointed hood drooped quite below
the waist-line.

Another.
Another chic model had the hood
effect brought down in the front of
the bodice and there ended with a
heavy tassel of silk. This was al
most startling in its originality.

The Flute.
The flute has broken out in
many and varied forms, but one of
the most quaint and popular of these
old-time revivals is made from shot
tassels in light shades of blue and
with lingerie gowns. One which was
greatly admired was of dainty blue,
in faintly shaded stripes, and edged
with small ruffles around the cape.
The girdle finished with a "milliner's"
fold. This was used with a gown
which reminded one of the Godey's
collection—with its rather narrow
skirt trimmed with narrow ruffles ex
tending from the skirt edge to the
knee. With this was worn a poke
bonnet which, with its tiny bouquets
beaded each ear, added still further
to the quaintness of the costume.

For a Summer Afternoon.
One of the recent warm afternoons
was made less warm and the
weather forgotten through the
entertainment furnished by the chil
dren in a certain neighborhood in the
West Adams locality. Tableau
formed the entertainment, and the
grows-up as well as the little ones
were made happy by the affair.
took place in the back yard, where
a clothes line formed the drop cur
tain and real vines had been do
with the scenic effects. The little
girls who posed had been working
and planning for a number of days
and the audience was surprised by
the artistic results. It was a revela
tion to those of the younger genera
tion who have thought little about
such entertainments, and it took the
older ones back to the days when
they had been "beauties" in the
"Red Riding Hood" or "Under the
Altogether it passed the afternoon in
a delightful manner for all; and it
was half decided that there should
be a neighborhood Tableau Club, and
that possibly even dramas might
be in their line—this time.

Fashion Favors.
The most charming of children's
bonnets are evolved from fine em
broidered or spotted muslin over
pink pongee, with ribbons to match.
The first authoritative autumn
hats are sugar-loaf shape, with fancy
feather trimmings. Crowns are rather
high, and brims sharply upturned.
Probably more one-piece silk
dresses are seen this season than at
any previous time, and nothing has
in it more satisfaction for a woman.
Gloves are dyed in every conceiv
able shade to match the colored
shoes and stockings, which in every
case ought to harmonize with the
toilette.

This is the first season that ma
terial of all weaves, whether silk, cot
ton or wool, have been combined, and
the effect has been one of artistic
merit.
Petticoats in natural colored pongee,
with printed bands in color on the
edges, are used for flannel suits.
Rose and blue are the favorite shades
for the decoration.
Very thick roulex of moss, finish
the waists of corset-piece dresses,
and are twisted and arranged in over
ments at the top of the back panel,
usually fastened at the neck.
The Quaker-shaped collar is still
worn, but is preferred more reduced
in size, and with a little more elab
oration than the earlier styles. The
suffered frills of material or lace be
ing popular.
Bold designs in chrysanthemum and pin
bons are cut out and are effect
ively in borders of lace and yokes
and sometimes they are in turn
filled with net or fabric.

PLENTY OF SEX IN SUFFRAGIST.

CHICAGO LEADER CRITICISES
LEARNED DOCTOR.

"Didn't Founder of Movement in
America Nurse at Own Breast Sev
en Healthy Children?" Asks Mrs.
Anna Blount; "And Look at My
Own Three," she Says.

(BY DIRECT WIRE TO THE TIMES.)
MILWAUKEE, Aug. 3.—(Exclu
sive Dispatch.) Criticism that suffrag
ists are, to a large extent, sexless,
made by Dr. Max G. Schlapp of Col
umbia University, in an address at
New York City, has aroused Dr. Anna
E. Blount of Chicago, who is one of
the women now actively promoting
the "votes for women" campaign in
Wisconsin.

"Dr. Schlapp says that suffragists
fail to realize the duties of woman
hood and seem to lose their womanly
qualities," but from a university pro
fessor one expects statements of that
kind to be followed up by some facts,
some summary of evidence in their
support," said Dr. Blount, in answer.
"If Dr. Schlapp has any reasons for
this conviction of his, he has failed to
state them in the papers."

"What proof is there that suffrag
ists are sexless; that they do not nurse
their babies, and that, if women
would leave their political field alone,
we will have a much more satisfac
tory generation of children?"

The founder of the suffrage move
ment in America, Elizabeth Cady
Stanton, reared and nursed at her
own breast seven healthy children. In
fact, it is curious that in looking over
a medical practice, largely among suf
fragists, I can scarcely recall one who
does not nurse children, or at least
want them, if she is entitled to them,
or who does not nurse them if she has
them. There are some suffragists,
like Jane Addams or Susan B. An
thony, who have never married, if
that is evidence of sexlessness.

The same cry of unsexed woman
was made when women began to go
to high schools and colleges. It is
laughable to read the opinions of
learned doctors of divinity that the
study of geometry or algebra would
ruin the home; that women would ne
glect their babies, and husbands in
the pursuit of mathematics. It is
in conclusion, I would like to say
that, having nursed three babies my
self, I should like some proof before
I accept the statement that suffrag
ists are sexless."

LETTERS TO THE TIMES.

Wanted.
IMPERIAL, July 27.—(To the
Editor of The Times.) Wanted—Six
Republican editors in the Imperial
Valley to represent all the good peo
ple of this place. Republicans in the
United States who are represented
through a socialist press.

We don't want any editor to come
here who intends to use most of his
time and the best of the paper's space
in painting up or making heroes of
a lot of cowardly thieves who come
here to steal, rob and murder the
peaceable farmers on either side of
the international border. The good
people here are all thoroughly tired
and disgusted by those kind of heroes
and their sympathizers as well.

F. A. HERVES.

ORGANIZATION UNDER WAY.

Apartment-House Owners and
Operators Forming Association for
Mutual Protection and Trade In
formation.

The adjourned meeting of the apart
ment-house owners and operators who
started an organization at the office
of F. J. Nicholson, in the Byrne build
ing, last Saturday night will be held
this evening in the social hall of the
Hilman, Seventh and Figueroa streets.
Officers will be elected and a perma
nent organization effected.

The organization is expected to rank
with the Hotel Men's Association of
California, to which many of the
apartment-house owners are not now
belonging. It will combine with similar
organizations in handling unfavorable
legislation, laundry troubles, help af
fairs, and board bills problems, and will
maintain an information bureau for
the benefit of the members.

FINE WATER BUILDING.

Eight-story Municipal Structure
Costing Two Hundred thousand
Dollars Now to be Reared.

The prosecution of the construc
tion of the new building for the hous
ing of this department, delayed by
the critical financial situation of the
aqueduct work, and more lately, by
advantageous changes in plans will
be vigorously prosecuted, announces
the Public Service Commission in its
annual report to the Council.

This means that the municipal
water building at Fifth and Olive
streets, for which the concrete founda
tions have been laid, will be reared
at once as an additional ornament to
this section.

The plans are in the hands of P.
M. Johnson and A. N. Davidson,
members of the commission, and will
be completed by Parkinson & Berg
strom this week.
The building will be eight stories,
and will house the water, power and
aqueduct departments.
The first two floors will be of granite
and the six upper of pressed brick.
The construction will be class
A with steel frame interior. The cost
not to exceed \$200,000.
The building was planned and be
gun two years ago but the present
Council discouraged the expenditure
of any money in this direction until
the way of the aqueduct seemed
clearer. This seems clear now.
The decision to build eight stories
is not final and there may be only
six. Ultimately it may be made ten,
as the foundations are ample.

UNCLE SAM NEEDS HELP.

Federal Civil Service Men Will Be
Busy This Month and Next, Giving
Examinations for Positions.

Secretary McDonald of the United
States Civil Service Commission yester
day made public a list of the ex
aminations for various positions which
are to be held in the near future. The
positions and the dates follow:

August 19, copperplate map en
graver; August 22, assistant metal
lurgical engineer; August 23, colorist,
guard qualified as marine gasoline en
gineer, laboratory assistant in timber
tests, laboratory assistant qualified in
practical optics, clerk; finger-print in
spector, electrical engineer and drafts
man and assistant in assay laboratory;
August 26 and 27, assistant teacher
in Philippine service, and industrial
teacher; August 26, dayrman; Sep
tember 12, aid coast and geodetic sur
veyor, apprentice plate cleaner, trans
fer and engraver, assistant inspector
of boilers, assistant inspector of hulls,
civil engineer for Philippine service,
computer in naval observatory, seven
draftsmen, kindergarten teacher, lo
cal inspector of boilers, local in
spector of hulls, hatter in
Indian service, two physicians,
teacher for Indian service, and veter
inarian for Philippine service; Novem
ber 1, clerk and carrier.

PROTECTING WHITE SLAVERY?

**AUTHORITIES SUSPECT POLICE
OVERLOOK THINGS.**

Arrest of Man Charged With Forc
ing Girl From Country to Lead
Life of Shame Brings on Investiga
tion by Chief of Police and District
Attorney's Staff.

A suspicion that there has been po
lite protection of immoral resorts in
this city has grown out of the arrest
Tuesday of Fred Sady, charged with
forcing Clara Lantz to lead the life
of a white slave, and a rigid investi
gation is being conducted by the chief
detective of the District Attorney's
staff, working in conjunction with the
Chief of Police.

The girl asserts that she was ap
proached in a low resort by an officer
who assured her that "things would
be all right," or words to that effect.
The identity of this officer the officials
are now trying to find out.

Earle Buss, confessed taker of
bribe to protect the resorts of the
demi-monde from police interference,
was called yesterday to Brown's of
fice while the girl was present.
Brown refused to make a statement,
but the woman asserted when ques
tioned by a representative of The
Times that she had never seen the
former "Purity Squad" officer be
fore.

Assisted by Constable Thomas, de
tective Dunt, who has taken charge
of the outside work in the case, yester
day arrested three men who are
alleged to have been keepers of re
sorts in which the Lantz girl was con
fined at different times. They are
Gust Anderson and George Rapana, of
No. 211 Sunset boulevard, and S.
Masumoto of No. 237 San Pedro
street. Deputy District Attorney
Jose Lantz complained from the man,
but they were not arraigned yester
day.

Clara Lantz identified Anderson and
Rapana as the men in whose house
she had been placed by Sady. Masu
moto, the Japanese, was taken
by Dunt to see Sady, and asserted
that it was he who brought the girl
to the place on San Pedro street and
arranged that they should share the
profits of her shame.

When the Lantz girl was missed
from her home in San Jacinto her
mother notified the Los Angeles po
lice department, and officers were
instructed to be on the lookout for
her. The officials conducting the in
vestigation suspect from her story
that local policemen knew of her
presence here, but failed to report it.

The girl is living at present at the
Deaconess's Home, on Westlake ave
nue. Brown believes her case re
sembles that of many young girls
who come to the city seeking em
ployment, and who have no friends
to protect them from scoundrels.

SUSPECT SEEN HERE.
A rumor that W. H. Wolfe, the
ranch hand who is suspected of hav
ing slain the Overman children
near El Centro, has been seen in
Los Angeles, has caused the police to
look sharply for him. At El Centro
sky notified the Sheriff at El Centro
Tuesday night that he had seen Wolfe
in a saloon here. Constable Frank
Crane and Deputy Sheriff Lee Ferrill
are in their way from Calisto to
this city to seek him.

Bullock's Selling at \$1.50

**WE Can't Tell Enough
About these Undermuslins \$1.50**

—that have just come. It's the first event in a series of great
offerings that the Second Floor will put out during August. A
special purchase received from New York, including the most
special values.

TRYOUT PLAN TO BE TRIED.

Railroads Seek to Recoup
Their Losses.

Meeting to Defeat Decision
Recently Given.

California Product Shipped to
Europe.

A plan which has been under consideration for over a year probably will be given a tryout as the result of the recent reduction in commodity rates to western ports ordered by the Interstate Commerce Commission. The transcontinental railroads interested have been declaring for some time that class freight rates should not be based on water competition, and that where freight comes in competition with water-carrying lines, commodity rates should be put into effect.

The matter will be taken up at a meeting of the traffic and executive officers of the transcontinental lines to be held in Chicago this month. The plan involves abandoning the present method of meeting with water competition on the Pacific coast as to class rates, and a substantial increase in the commodity rates. Since the ruling of the Interstate Commerce Commission in the inter-mountain cases, the railroads are seeking a means of overcoming the loss of revenue caused by the outside class rates were not involved in the inter-mountain cases, and as they over only high grade commodities, the railroads are said to feel that no need of meeting the competition of the water-carrying lines.

NEW SERVICE.
SANTA FE'S FAST TRAINS.
Confirmation of the purpose of the Santa Fe to start through-passenger service between Los Angeles and San Francisco was given by John Byrne, assistant passenger traffic manager, Byrne returned yesterday on his annual vacation trip.

"We have been working on the plans for this new service for some time," said he, "in order to make the time over a track 111 miles longer than the Southern Pacific mileage between the two cities, the company has reduced grades, rebuilt and halated miles of track, established a new division point, and purchased a number of new fast engines for the service. It is the purpose to start the service with a through fast train each week, leaving Los Angeles for San Francisco at 4 p.m. and arriving at the opposite terminal at 11 a.m. the next morning. The train will be modern and will include a composite baggage and smoking car, a combination smoking and chair car, the necessary number of sleeping cars, and an observation car.

The Santa Fe now has no through passenger service between Los Angeles and San Francisco, passengers to either city destined to the other transferring at Barstow.

Beet Pulp to Europe.
E. A. Church, resident manager of Larrore Milling Company, is shipping a carload of California beet pulp to Germany. The company at Church represents buys the residue of the beet pulp from the sugar factories and makes it into a stock.

From the big factories at Santa Ana and Chino, Church will ship about 1000 tons to market. Beet growers in this country are familiar with the value of the beet made from beet pulp, and have been shipping it abroad for some time, but it is now being marketed in Europe.

Women Clerks Barred.
A ruling of the Southern Pacific Railroad that hereafter women will not be employed as clerks or stenographers in the passenger department, does not affect the Los Angeles division. P. E. Battista, assistant general passenger agent at Los Angeles, said yesterday that no women were employed in his department. The reason assigned for the ruling is the tendency of the girls to try just when the train is about to start, and the result is a great deal of trouble and delay. There is also a handicap imposed by a recent act of the Legislature forbidding men to work more than eight hours.

Heavy Freight Cargo.
The President of the Pacific Coast Steamship Company discharged at Pedro Harbor yesterday the large cargo over brought from northern California to Los Angeles. The cargo included 2000 tons of lumber, 500 tons of sugar, and 500 tons of other goods. The cargo was unloaded at the harbor and then shipped to Los Angeles by rail.

New High Line.
An announcement is made that the Los Angeles and San Francisco Railroad will complete its high line through the Meadows in Utah by October 1. A considerable part of the work has been done west of Caliente. The new line will be built on a high grade, and will be a great improvement over the old line.

The Grand Trunk Pacific.
Atkinson Banks Berry, Ottawa correspondent of the New York Sun, the New York Evening Post and the New York Journal of Commerce, who has been in Western Canada for the past few weeks has the following to say in Edmonton Evening Journal regarding the Grand Trunk Pacific, which line he traveled:

"One of the greatest surprises of my life was encountered when, for the first time, I had the pleasure of riding over the western extension of the Grand Trunk Pacific. Owing to the fact that the road is a new one, I expected an experience like that which I encountered when traveling a new road. Instead, however, the line was a well-developed and comfortable one, with solid vestibuled cars, on which are provided all the conveniences a road could offer."

EXTRA LIBERAL EASY TERMS

Call at our office, get a map of HERMOSA BEACH and arrange here all the details of your trip out. We will gladly furnish information on any point not covered in our advertisements.

BAZE CROWD.
(Continued from First Page.)

The girls laughed over their shoulders, and made for a high corner. The ponies at first walked slowly and acted strangely.

Bonnie Jean, the horse Miss Robison was riding, took the breaker like a champ, while that of Miss Pettibone reared the saddle, which she had well oiled to preserve the leather.

"We did not start this to be sensational," said Miss Robison yesterday, "but because we are very fond of the water and of horseback riding. Coming in is the most fun. We start the horse toward the shore and as the wave overtakes us we urge them to jump. It feels as though the horse had taken a great leap as the wave smoothly and evenly takes the animal from his feet and deposits him down in front about fifteen feet nearer the shore. This is repeated until we get beyond the reach of the waves."

The Useful Earth Worms.
(Baltimore American.) As tillers of the soil, earth worms constitute a great army. It is estimated that there are 4,000 worms in each acre of garden soil, and about half that number in cornfields. Nine burrows or worm holes are usually found in two square feet of garden soil. It is further computed that in all cultivated lands in which worms are able to live no less than ten tons of earth are brought to the surface in each acre by the worms each year. Worm burrows are free from decay, and are a great benefit to the soil. Since the worms feed largely upon vegetable matter and since various acids, which are called humic, are generated by the digestion of such matter, worms must affect the quality of the soil to that extent, for the humic acid plays a far more important part in the disintegration of rocks and the production of proper soil than does carbonic acid, itself known to be a powerful agent. The tillage of worms is thus chemical as well as mechanical in its effect upon the soil.

CALIFORNIA RANKS HIGH.
The patients and patent agents in the number of patents granted, columns of The Times "Liner" section, not only "exploit" desirable inventions, which can be bought for a song, but contain the names and addresses of reliable patent attorneys.

Investigate HERMOSA BEACH

The most handsomely developed, the cleanest, the most progressive
the most reasonably priced Beach property in all of Southern California

When you look closely you will find there isn't much unoccupied or unsold beach property along the Southern California coast, and what there is of it is now being held at such high prices that it is out of the reach of most of us.

Spend a TRULY Delightful Day at HERMOSA BEACH

A Clean Town with a Clean Beach---The Town that Answers Every Question

We want you to know all about HERMOSA BEACH. The more you know the better for us, and the more you know the better for yourself, because every bit of information you gain regarding this up-to-date progressive beach town will count much nearer inducing you to invest, and every investment here brings you just so much nearer future success.

Hermosa Beach is an incorporated town and has a wide awake Board of Trustees governing its affairs, a Board which has in the past taken up every progressive move proposed for the benefit of the town at large.

Hermosa Beach has paved streets. Every house is on a paved street and alley. HERMOSA BEACH has 17 miles of asphalted streets, which with the sewer and water systems have cost nearly \$600,000.

At Hermosa Beach there are building restrictions, sensible building restrictions, that give sufficient but not prohibitive protection, restrictions ranging from \$500 to \$1000, according to location.

Hermosa Beach has schools and churches, four churches of different denominations and one public school, and another to be built soon, costing \$25,000.00, and also a high school within 10 minutes' walk.

At Hermosa Beach the car service is good, as good as any other point within 50 minutes' ride of Los Angeles business center, with a 25c round-trip commutation.

At Hermosa Beach there are lots of other good points, and the least good point is the fact that lots of good points are offered and sold at \$500 and up, and the streets are being arranged in a most desirable manner.

At Hermosa Beach there are lots of other good points, and the least good point is the fact that lots of good points are offered and sold at \$500 and up, and the streets are being arranged in a most desirable manner.

Battle Stories of the Civil War.

The War Day by Day Fifty Years Ago

CX.

August 3, 1861—Congress Authorized the Appointment of a Commission to Look Into the Merits of Ironclad Ships of War—The Slow Beginnings of a Revolutionary Movement in Naval Warfare.

Copyright, 1934, by Associated Literary Press. FIFTY YEARS ago today Congress authorized the appointment of a commission to investigate the merits of ironclad ships of war. The text of the act appointing the commission was as follows:

"Be it enacted etc.—That the Secretary of the Navy be and hereby is authorized and directed to appoint a board of three able and experienced officers to investigate the plans and specifications that may be submitted for the construction or completing of ironclad ships of war, and to report thereon, and on their report, should it be favorable, the Secretary of the Navy will cause one or more ironclad or iron or steel-clad steamships or floating batteries to be built; and there is hereby appropriated, out of any money in the treasury not otherwise appropriated, the sum of \$1,500,000."

This step though fraught with such great possibilities and making as it did, the beginning of a movement in naval construction little short of revolutionary, was not taken without doubts and fears.

The progress of the navy department toward the adoption of ironclad ships had been slow because support of the theory that an iron vessel was more formidable in war than one built of wood had been by no means hearty among naval officers.

The first report of the Secretary of the Treasury, Gideon Welles to Congress, on July 4, 1861, had contained the suggestion that a commission be appointed to inquire into the "expediency and practicability of the construction of ironclad ships, but the language of the Secretary in making the recommendation had been guarded.

"Much attention has been given within the past few years to the subject of floating batteries, or ironclad steamships," he wrote. "Other governments, and particularly France and England, have made it a special object in connection with naval improvement, and the ingenuity and inventive faculties of our own countrymen have also been stimulated by recent occurrences toward the construction of this class of vessel."

The Secretary stated that "the period is perhaps one of the best adapted to heavy expenditures by way of experiment," and that "the time and attention of those who are most competent to investigate and to form correct conclusions on this subject—that is officers of the navy—are otherwise employed."

In recommending the appointment of the commission, he added, "It is for Congress to decide whether, on a favorable report, they will order one or more ironclad steamships, or floating batteries, to be constructed, with a view to perfect protection from the effects of the present armament at short range, and to make an appropriation for that purpose."

Inventors Not Encouraged. This step, cautious as it was, had not been taken without strong pressure from private citizens, shipbuilders and others.

From the beginning of the war inventors particularly had been bending their energies to inducing the government to build ironclads. Dozens of plans had been submitted for ironclad vessels, many of them admittedly wild of the mark, but all showing that a crucial moment in warship construction was at hand.

The construction of the Federal government, in which a bureau system had controlled since the beginning the construction of ships, turned a cold shoulder to the inventors.

Naval officers were almost wholly opposed to experimenting with iron ships. They had been brought aboard wooden ships and had found them good enough.

The report that the Confederates, unbound by red tape and the prejudice of an old naval regime, were straining every nerve toward making an ironclad out of the Merrimack, which had fallen into their hands on the abandonment of the Norfolk navy yard, appeared to make little difference to the naval bureau heads.

The importance of this information seems to have been underestimated. The South could do nothing with such a ship; or the South was not mechanical, and therefore not greatly to be feared in this direction, were expressions often heard in Washington.

Private enterprise had not been idle in the direction of the ironclad, however, and when the war began there was a partly completed "steam battery," or iron-clad war vessel, in private yard at Hoboken, N. J.

This was the result of experiments by the well-known Stevens brothers, one of whom, John C. Stevens, founded the New York Yacht Club. John C. Stevens was dead, but his brother, Edwin A., was prepared to carry on the work of completing the battery, then partly built, and had proposed to the government to do so. The sum asked, however, led the Secretary of the Navy to suggest in his report that the special board also report on the completion of this vessel, or battery.

Enter Ericsson. Meanwhile there had appeared at the capital an advocate of John Ericsson, the eminent Swedish engineer, who had introduced in America two decades before the screw propeller, which had gradually displaced the paddle wheel in ships of war.

C. H. Delamater, who had been Ericsson's ETACH ETACH OOO executive in England, in July, had gone to Washington for the purpose of advancing Ericsson's interests before Secretary Welles.

His mission was a delicate one, for Ericsson had more than one powerful opponent in the Navy Department bureau, who would not be slow to block any proposal he might make.

This feeling dated from the building from Ericsson's designs for machinery and armament of the steam vessel Princeton in 1842. A fire gun had exploded on the Prince-

ton—from no fault of Ericsson's—killing several persons, including the secretary of the navy.

From that time Ericsson had often come in contact with the Navy Department, and had often found his plans thwarted.

He was a civilian, he was daring, and he had little respect for precedent, which was the watchword of the old navy.

On one occasion he exclaimed bitterly in a letter: "In the name of God is not my position cruel? The sound-dre have prevented my furnishing plans or giving directions, and now that they have failed, they attribute his failure to having worked to my plans."

This was such a common experience with him that he was obliged to proceed with caution in trying to get the government to accept any of his plans, and it does not appear that Mr. Delamater went further on this visit than to endeavor to create a favorable impression of Ericsson in the mind of the secretary, as a basis for possible proposals later.

"I am treated well," wrote Mr. Delamater to Ericsson from Washington fifty years ago; "have had two interviews with Mr. Sec. Welles, one of them alone in my own room, yet I have no expectation of any contract or immediate good result to me or to us from my present stay. Am to see Mr. Welles this evening at his request."

Plans of the Monitor. Apparently the placid, cautious Secretary of the Navy was taking careful note of what Ericsson's representative had to say, though his position was such that he would not have dared to assume any responsibility in the adoption of so radical a course as the building of the Ericsson ship, had the proposal to do so then been presented to him.

One point that would not have escaped Mr. Welles was that the plans for the Monitor were not new, but had been completed seven years before, had been offered in 1855 to Napoleon III for the French navy in the Crimean War and had been rejected by that monarch.

Before they had lain in a dust-covered box in John Ericsson's house in New York, Ericsson had faith that in due time the Monitor would be built, and that Napoleon III, in rejecting the plan, had made a mistake as grave as that made by Napoleon when he rejected the plans of Robert Fulton for a steamship.

Yet Ericsson exhibited with pride the letter that had been written him by the French Emperor in rejecting his plans. While the Emperor found the idea ingenious and worthy of the celebrated name of the author, he thought "the result to be obtained would be proportionate to the expenses, or to the small number of guns which could be brought into use."

With the passage by Congress of the bill appointing a commission to investigate ironclads, Ericsson felt that the time had come for him to bring out the plans of the Monitor again.

Before he should present them to the government, however, a new advocate was to come forward in the person of Cornelius R. Bushnell, of New Haven to urge his cause at Washington.

The story of how Mr. Bushnell, a stranger to Ericsson, first met the great engineer and received from him the plans of the Monitor, with which he hurried to Washington, belongs to a little later date and forms one of the most fascinating chapters in American history.

Confederate Leading. Fifty years ago this time Ericsson was in a state of restless anxiety over what he believed was inexcusable delay on the part of the government in meeting the activities of the Confederates in building at least one iron ship.

News from Norfolk—brought by spies, but none the less accurate for that—was to the effect that the Confederates had already begun work on the Merrimack, in order to convert her into an ironclad.

The United States government had various similar ships which could have been similarly treated in shorter time, but the conservatism of the Navy Department did not permit it to take a step in this direction.

As early as May 8, the Confederate Secretary of the Navy, Stephen R. Mallory, had written: "I regard the possession of an iron-armored ship as a matter of the first necessity. Such a vessel at this time could traverse the entire coast of the United States, prevent all blockade, and encounter with a fair prospect of success their entire navy."

Mr. Mallory had added, prophetically, "naval engagements between wooden frigates, as they are now built and armed, will prove to be the forlorn hope of the sea."

Without waiting for an appropriation even, Mr. Mallory had authorized the plans submitted to him by Chief Engineer William P. Williamson, Lieut. John M. Brooke, a former officer in the United States navy, and Naval Constructor John L. Porter, for raising and rebuilding the Merrimack, and fifty years ago today the work was already in progress, and the drydock at Norfolk navy yard ready to receive the hull of the ship.

For tomorrow. Searching for the body of Col. James Cameron at Bull Run.

WILDE IN PORTLAND. PORTLAND (Or.) Aug. 2.—Louis J. Wilde, the San Diego banker, extradited to this State to answer the charge of embezzling \$3,000 from the defunct Oregon Trust and Savings Bank, arrived in this city today in custody of a deputy sheriff, Dist. Atty. Cameron, who went to California to prevent extradition proceedings, reached Portland on the same train with Wilde and Attorney Sumner, who accompanied Wilde as his legal advisor. Wilde would not make a statement.

Hamburger's House Cleaning Service

—is the goal of the seeker for "extra" bargains! Hot weather does not deter the enthusiastic crowds for Hamburger's is the store of broad, cool aisles. Note these hints of the values that prevail here!

Cool "Fountain Beautiful" We Certainly Will Sell Silks at

—because to begin with they are 65c to 75c values! In the "House Cleaning" Sale we pass this by—ignore actual worth in favor of swift disposal! Almost every wanted coloring is here in plain and fancy, are the sort of silks that people who come just to look, end by buying are irresistible! A dress costs next to nothing!

Try our Egg Malted Milk next time you come in. It is healthful, nutritious and particularly satisfying. 15c

Two Full Carloads for the August Furniture Sale

Chiffoniers \$19.75

—Just arrived—and fortune favored us in the buying—an advantage we pass on to you! Strongly built, beautifully designed, well finished. Best materials, such as Birdseye Maple, Mahogany, Quarter-Sawn Oak, etc., are used in their construction. Really \$35 values—and would be low priced at that. We show three designs—there are many more—and at this price.

Such assortments as are shown in this sale can not be matched anywhere! Everything at prices astonishingly low.

The "House Cleaning" Shoe Sale is Something You Do Not Want to Miss

Women's \$3.50 and \$4.00 Styles. \$2.65 Men's Shoes \$3.65 Women's \$5 and \$6 Lines \$3.65

This lot includes shoes, Oxfords and pumps, both black and tan, all wanted leathers and some velvets. Many of the season's favored novelties among them, also many of the famous "Eber" shoes. There's a variety that enables us to fit and to please every woman.

Choose a "Domestic" or an "Angelus" Sewing Machine

(Purchase It On Our Club Plan) Down and the machine is delivered to your home. \$1 A week is what you pay on the balance due. No "red tape." This Domestic Model has all latest ball-bearing improvements; also solid bar lift. Regular price \$65. \$45 An "Angelus" is that ball-bearing throughout, automatic lift \$24.50 and drop head. Others would ask \$40.

Children's Silk Stockings 25c

Fine grade, pure silk, with double heels and toes for extra durability. Corverts extra white, pink and blue. Sizes 4 to 6. Special.

\$10.00 Wavy Switches \$4.95

Of extra fine quality natural wavy human hair and come in all wanted shades except grey. You'll find these thoroughly satisfactory.

Embroidered Linens

\$2.00 to \$2.50 values. Some slightly mused. Hemstitched and embroidered scarves and squares. A general clearance display.

Keep Your Eye on Panama

Its West Coast has a delightful climate, With the most fertile lands on earth. (See U. S. Gov. Reports)

Think what the opening of the Panama Canal will mean to this favored land of land-hungry emigrants from all Europe are rushing to a population of only four to the square mile!

And the United States Government is spending THREE HUNDRED SEVENTY-FIVE MILLIONS OF DOLLARS to make this possible.

Can't you grasp what this means? Do not sit still and let this of Five Centuries vanish before your eyes.

See that the backing of the United States has done for Porto Rico, Philippines in the way of increased land values.

This is your opportunity to acquire a fortune from a small investment. Price, \$6.00 per acre; payable \$1.00 down and 25 cents per month for with no taxes for five years.

NOW is the time. Come in TODAY.

PANAMA DEVELOPMENT COMPANY

216 Mercantile Place Between Fifth and Sixth Streets. LOS ANGELES, CALIF.

A PAYING PROPOSITION

It is true that it takes more money to "own" a piece of property than to "rent" it, but it is equally true that substantial fortunes can still be made by taking advantage of the rare bargains offered in the "For Sale" Business Property" columns of The Times "Liner" section.

SAFE AND SANE

No investment in the world is safer or more conservative than Los Angeles city or country real estate. For the best and biggest list—many offered at prices—read the "For Sale" "For Exchange" real estate columns of The Times classified section.

City Company in New York Offends the Statutes, Rumored.

Will Try New Way to Make Their Business Conform to Law.

WASHINGTON, Aug. 2.—Attorney General Cummings today announced that the Securities and Exchange Commission has decided to file a suit against the City Company of New York, charging that the company, which is a subsidiary of the City of New York, has violated the Securities Act of 1933.

The suit is the first of its kind, and is expected to have a far-reaching effect on the securities market. The City Company, which is a subsidiary of the City of New York, has been accused of selling securities without proper registration.
